VOLUME 6. MARYVILLE, MISSOURI, FRIDAY NOV. 5, 1915. NO. 133.

THIRD CLASS CITY CHARTER PROPOSED

COMMERCIAL CLUB COMMITTEE URGES CHANGE.

OTHERS THIS SIZE HAVE SUCH RANK

Makes More Officers Elective and Provides for Many Minor Advantages in Government.

That Maryville should be a city of the third class instead of the fourth class, which she is now was the opinion of a number of the members of the city council and the Commercial club at a meeting held last evening at the Commercial club room. The report of a committee composed of lawyers was read, in which was pointed out the advantages that would be had by being a third class city. This report will be read before the city council at their regular meeting this evening, and action will probably not be taken until their next regular meeting in December.

To make the change from a fourth class city to the third class, it would be necessary to submit the matter before the voters at an election, only a majority being necessary for the adoption.

The report of the committee is as follows:

To the Board of Directors of the Commercial Club, Maryville, Mo.: We, your committee appointed to consider and report upon the advisability of adopting a charter of a third class city for the city of Maryville, in lieu of that of a fourth class city, beg leave to report as follows:

We find, among several minor points, the following vital differences between the charters of third and fourth class cities:

First—Under the third class charter the mayor, marshal, city attorney, police judge, assessor, collector and treasurer, are elected by the people, while under the fourth class charter only the mayor, marshal, and collector are by law elected by the people, but by ordinance the assessor, city attorney, city clerk and street commissioner may be elected by the people.

Second—In the third class cities the qualifications of mayor and aldermen are as follows: The mayor must be at least 30 years of age and a resident of the city for at least two years; aldermen must be 25 years old, residents of the city one year and of the ward six months. In cities of the fourth class the mayor must be 21 years of age and a resident of the city one year; aldermen must be 21 years of age and residents of the city one year.

Third—All elections in cities of the third class are held under the general election laws of the state, and the provisions of the Australian ballot system obtain, which is not the case in fourth class cities.

Fourth—Under the charter of cities of the third class the mayor and city assessor are by law entitled to seats on the county board of equalization, when said board is sitting for the purpose of equalizing the assessments of property located in such city, and each have a vote in said board.

These are only a few of the differences existing between the two classes of cities, and your committee is of the opinion that the fact that under the charter of third class cities nearly all city officers are elected by the people would be a sufficient reason for changing from a city of the fourth to a city of the third class. Much of the misunderstanding attendant upon the matter of city appointments would be avoided by adopting a third class charter.

There is an urgent need, right now, for a revision of the ordinances of the city of Maryville, the present revision having been made in 1903. Since that time a mass of ordinances have been passed, and it entails much research to find just what is the statutes of the law upon many subjects relating to the city, and often a search of the records will fail to disclose just the exact status of the law.

This could be very economically remedied by the passage of a complete code of ordinances for the government of the city, should a third class charter be adopted, and we believe the cost of the election and the passage of the new ordinances could be accomplished with less expense to the city than would be incurred in revising the present ordinances.

Again—The city of Maryville is the only city in its class in the state, as to population, which is operating under a fourth class charter, and our opinion is that this is another very cogent reason for the change to a third class city.

Our prestige would be immensely enhanced should we join the ranks of such cities as Independence, Cape Girardeau, Kirksville, Columbia, Springfield, Carthage, Webb City, Moberly, Sedalia and Jefferson City, and we believe that our importance commercially, educationally and from every other standpoint ought to prompt us to advance to the position to which we justly are entitled.

Dated at Maryville, Mo., this 4th day of November, 1915.

DEATH OF JOHN HAMILL.

Funeral Will Be Held at St. Patrick's Catholic Church Tomorrow Morning at 9:30 o'Clock.

John Hamill died at 8:45 this morning at the home of his sister, Mrs. Dan Gallagher, on South Buchanan street, after an illness of several months. The cause of his death was cancer.

The funeral services will be held tomorrow morning at 9:30 o'clock at St. Patrick's Catholic church, to be conducted by Rev. Father Henry F. Neimann. Burial will take place in St. Patrick's cemetery.

Mr. Hamill was 73 years old and was a native of Ireland. He immigrated to America at an early age and came to Maryville many years ago. He was a brother of Peter Hamill, formerly in the saloon business here, but who is now living in Oklahoma City.

Hold 3 For Investigation.

Deputy Sheriff Gabe Purcell picked up Tom Miller, Bert Riggs and Peter Rutz at Conception Junction yesterday and they were brought to Maryville and placed in the county jail, being held for investigation.

Death of Cousin.

J. K. Sawyers of this city received word at noon today of the death of his cousin, Mrs. Jennie Noble of Bosworth, Mo., who died at 12:15 o'clock. He is expecting to attend the funeral, which will probably be held Sunday.

TONIGHT FERN THEATRE 5 and 10c

GAIL KANE

Late Star in Seven Keys to Balpate, and the Miracle Man in Clyde Fitch's great drama "HIS GREAT MATCH."

MEN TO FEDERATE

BAPTIST CLUB PROPOSES UNION OF BROTHERHOODS.

MAYOR HEADS COMMITTEE

Wright Mentions Liquor Fight in Recommending Movement—Mock Trial a Good Farce.

The spirit of federation is in the air, it seems. Now it's the men who want to unite. The Men's Brotherhood of the Baptist church, after a speech by Mayor U. S. Wright last night, voted to propose a federation of the Men's clubs of the Protestant churches to the other brotherhoods.

The mayor was appointed chairman of a committee to meet with representatives of the other churches in case favorable action is taken by the other clubs at their regular meetings. Mr. Wright said in his speech that there are many things which the men of the churches should meet and try to solve collectively.

He mentioned the saloons in particular, and the liquor election next summer as one of the reasons why the men of the churches should perfect a strong organization. Better gospel team work and more evangelism by laymen was advocated as other problems to be met by the men as a whole.

The meeting last night was the regular monthly banquet of the Baptist Brotherhood. Almost 100 men were there. A mock trial immediately after supper was the entertaining feature of the evening.

Mock Trial Makes Fun.

Ed Brewer, job printer in The Democrat-Forum office, was arrested, charged with the crime of putting a misleading picture upon the tickets which were printed for the banquet. The picture was a little figure of a waiter carrying a tray with a tall jug which looked suspiciously like a beer stein and a glass of the general shape of a wine glass.

Dr. K. R. Malotte, president of the brotherhood, was prosecutor, and the case was tried before "Judge" L. C. Gann. Charles Hyslop defended the prisoner. The defense was that the tall mug was a coffee pot and the glass was for milk. This was shattered by the prosecution, however, when witnesses were produced from those present who testified that they had bought the tickets thinking that something else was to be served.

A jury of six good men and true found the criminal guilty on their first ballot and the judge sentenced him to a fine of rolling a peanut across the floor with his nose. He refused to pay the fine and was sent to jail.

Visiting Preachers to Be Here.

The pastor, Rev. L. M. Hale, was not present, as he left yesterday for Canton, Mo., where he will assist the Baptist pastor there in a revival meeting.

Next Sunday morning the pulpit of the First Baptist church will be filled by workers from the State Anti-Saloon League. Next Sunday evening Rev. Emmett Estes, pastor of the White Cloud church, and the White Cloud congregation will hold a service with the Maryville Baptists. Rev. Mr. Estes will preach.

November 14 Rev. W. C. Scott of Canton will preach for Mr. Hale's congregation.

Dr. R. K. Maiden of Kansas City, editor of the Word and Way, will preach here November 21.

ON EAST AND WEST FRONTS.

Teutonic Success in Galicia and Repulses in Champagne.

Special to The Democrat-Forum.

Paris, Nov. 5.—The Germans renewed their attacks on La Courtine in Champagne yesterday, but their two assaults were repulsed, although they used liquid fire and gas hand grenades.

Drove Russians Back.

Berlin, Nov. 5.—The Austrians have pierced the Russian front on the Strypa river in Galicia, and after a three days battle the Slav army has been driven back across the river. The fighting is heaviest around Tarnopol.

DEATH OF WILLIAM GLAZE.

Had Been In Ill Health for Several Weeks and His Death Was Expected.

William Glaze died at about 2:30 o'clock this afternoon at his home, on North Mulberry street. He had been in ill health for several months. His wife died several weeks ago.

No arrangements have been made for the funeral services.

ORGANIZATION FURTHERED

Young People's Federation Still in the Talking Stage But Constitution Will Be Adopted Next Week.

Plans for the permanent organization of a new federation of young people's societies were discussed at length in a meeting of two representatives from each church last night at the library. The individual societies had already voted to enter such a federation.

The work of the delegates last night was to arrange for a form of organization and to outline work for the united efforts of all the Christian young people of Maryville. The presidents of the societies were appointed on a committee to draw up a constitution.

Virgil Hartness, president of the Epworth League of the First Methodist church, is chairman of the committee. The other members are Miss Bertha Anderson, Christian; Lee Meek, B. Y. P. U.; Philip Colbert, Presbyterian; I. B. Williams, Buchanan Street Methodist.

The other representatives present were Miss Edna O'Neal, First Methodist; Miss Hazel Wallace, proxy for Miss Julia Denny, who is in Kansas City at the teachers' meeting, Baptist; Vernon Nash, Buchanan Street; Mrs. E. B. Burnett, Christian, and Joseph Farmer, Presbyterian.

The group will meet again next Thursday night to receive the report of the constitution and to perfect the organization for ratification by the societies.

FLYNT HAS RESIGNED

COUNCIL WILL DISCUSS CITY ENGINEER'S OFFICE.

MAY MAKE TWO PLACES

Raising of Cigarette Limit From 18 to He Will Oppose Strenuously Invoyant Measures Up.

The resignation of F. L. Flynt as city engineer and street commissioner will be presented this evening at the meeting of the city council, Mr. Flynt having handed his resignation to Mayor U. S. Wright before leaving for Kansas City, where he was called by the death of his father.

It is probable that the city council will repeal the ordinance combining the two offices of city engineer and street commissioner, as it has been for the past year and then pass one making the city engineer and street commissioner separate offices.

With the resignation of Mr. Flynt it was said this afternoon that the two appointments would be made at the council meeting this evening. M. I. Woods, formerly street commissioner, is being mentioned for street commissioner. No one is being mentioned for city engineer.

Mr. Flynt has not decided what he will do. He was asked to resign by members of the council who thought that the combination of the two offices into one was not working satisfactorily.

A measure raising the age limit under which a dealer cannot sell cigarettes to a boy from 18 to 21 years old will probably be passed. The curfew ordinance which City Attorney Crawford was asked to draw up at the last council meeting will be discussed and in all probability passed. An anti-clairvoyant ordinance is also among the list of things to be discussed.

SPECIAL JUDGE FOR WORTH.

Ellison Still Unable to Hold Court, Although Improving Rapidly.

Although Judge W. C. Ellison is improving in health rapidly, it was not thought best by the physicians that he should sit upon the bench for some time. The Worth circuit court will convene next week and a special judge, Leo M. Phipps, has been elected by the Grant City bar.

Judge Ellison was in Kansas City yesterday receiving medical examination.

Week-End Guests.

BRYAN ATTACKS WILSON'S POLICY

DEMOCRATIC LEADER SAYS PLAN CHALLENGES CHRISTIANITY.

HE'LL FIGHT IT AS FALSE PHILOSOPHY

Former Secretary in Statement Says He Will Oppore Strenuously Increased Expenditures.

Special to The Democrat-Forum.

Washington, Nov. 5.—The open Bryan-Wilson split has arrived. William Jennings Bryan issued a long statement here today attacking the position of the president with reference to army and navy expenditures and taking issue with every item of the chief executive's preparedness program.

The former secretary of state challenges the entire policy of the administration as outlined in the speech of President Wilson to the Manhattan club in New York last night at their celebration of their fiftieth anniversary.

Mr. Bryan also denounced the Manhattan club as a place where the mammon worshipping portion of Democracy meets to exchange compliments. The president and his friends had expected the statement, as Mr. Bryan had announced previously that he would strenuously oppose any proposal to increase the expenditures for the army and navy.

The throwing down of the open issue between the two leaders of the Democratic party means that a great fight will be waged in the next congress, and that preparedness will be an important issue, if not the one issue, in the next election.

"The whole program of the president is a complete reversal of his international policy," said Mr. Bryan. "But it is more than that. It is a menace to the peace and safety of the United States and a challenge to the real spirit of Christianity. The President's reasons for the new policy constitute a false philosophy and must inevitably lead the United States into difficulties."

TO WIDEN GRAHAM ROAD

HUGHES MEN WANT TO MAKE GRADE THROUGH VALLEY.

County Court Will Probably Make the Order—Judges Will Discuss Bond Election Again.

John A. Gex, trustee of Hughes township, John A. Lowrance and C. R. Leeper, members of the township board met yesterday afternoon with the county court to discuss the change in the Graham-Maitland road just west of Graham.

A petition headed by E. W. Geyer and C. E. Wakeley asks the court to extend the north line of the road 66 feet, making the road 100 feet wide. The reason for the change is that a grade may be thrown up for the road bed through the valley of the Nodaway river.

The land would be taken from H. L. Leeper's farm. No order was made yesterday by the court but it is understood that the members of the court are favorable and such action will probably be taken November 13 in a special meeting.

The court went to St. Joseph today to visit the State Hospital No. 2, and to look after the condition of the Nodaway insane patients in the asylum there. They will return and hold another session tomorrow.

The subject of the meeting tomorrow will largely be a consideration of the calling of an election for the $100,000 bond issue. A large number of bills have already been allowed and a few more to be passed upon.

The court is unwilling to call an election at this time because of their belief that it would not pass and the county would be to a $600 or $700 expense without any benefit. This belief is upheld by representative men from all over the county. Unless the petition from Nodaway township is withdrawn, it will be mandatory on the court to call the election.

LETTER SHOWER FOR FINCH.

Friends Here, About Fifty Strong, Mailed Good Wishes to Former Pastor.

Rev. R. L. Finch, former pastor of the Christian church here, will get a surprise when the mail man arrives at his home in Milwaukee tomorrow. About fifty friends arranged a "letter shower" for him and the messages were mailed last night.

The letters were intended to be words of appreciation and encouragement and best wishes, as he enters upon his first Lord's day service in the Park and Prospect church in that city.

VILLA HAS CHANGED

WILL NOW ATTEMPT CAPTURE OF MEXICO CITY.

CARRANZA ON OFFENSIVE

Rebels Have Withdrawn From Agua Prieta and Short Campaign Against Them is Expected.

Special to The Democrat-Forum.

Washington, Nov. 5.—That Villa has definitely abandoned his attack on Agua Prieta is the report of General Funston to the war department from Douglas, Ariz.

The Villistas have been moved to Naco and it is believed that an attack on Mexico City is being planned. Four thousand are already there and the others will reach that city soon.

From Naco they are expected to move to Hermosillo; then to Guaymas or Mazatlan, from which positions the attack on Mexico City would be directed. The forces of Villa will remain at Naco just long enough to replenish their supplies.

Obrejon is expected tomorrow at Agua Prieta with Carranza re-enforcements to take the offensive against Villa. It is expected that he will be sent away on a short campaign.

FROM NEW WELLS SOON

PUMPING OF CITY WATER FROM EAST SAND POINTS.

New System Will Be Put in Force Monday Probably—Big Improvement in Every Way.

The Maryville water supply will be taken from the new sand-point wells on the east side of the 102 river beginning Monday or Tuesday, according to the members of the board of public works which held its regular meeting at the city hall last night.

The theory of the water department men and the members of the board is that all of the water needed can be drawn from the new wells and that the pumps can draw their capacity of 2,000,000 gallons a day from them if it is necessary.

Two-thirds of the water now used comes from the eight sand points on the west side of the river and a third from the river. There are twelve on the east side and the stratum of water sand is 12 feet thick as compared with 7 or 8 feet on the west side. So all the water will be drawn from the east points unless the practice of the wells fails to bear out their theoretical promise.

A new 10-inch main has been laid acorss the river and the water will be pumped directly into the water tower without any filtration or aeration as is necessary under the old system. The new points are in pure sand while the old stratum was "gummy" and full of iron.

The water tower is being painted this week by Cornett brothers. The steel work is getting one coat of black; the brick two coats of red; and the stone foundation two coats of gray. The job is almost finished.

George Patterson of Skidmore spent Thursday in Maryville on business.

GREEK KING MAY ADJOURN CHAMBER

ZAIMIS CABINET WOULD BE KEPT IN POWER THUS.

TAKES TWO MONTHS FOR NEW ELECTION

Leaders of All Parties Called Into Conference With King—Teutons Are Successful All Over Balkans.

Special to The Democrat-Forum.

Paris, Nov. 5.—An Athens dispatch says that the king of Greece has decided to keep the Zaimis cabinet in power by exercising his royal prerogative of dissolving the chamber of deputies.

It will require two months to hold a general election, and the old cabinet would hold office during that time. The chamber yesterday refused to approve the Zaimis government.

King Calls Leaders' Conference.

Athens, Nov. 5.—King Constantine has called the leaders of all parties and factions into a prolonged conference with him today to discuss the situation which has arisen because of the resignation of former Premier Zaimis and his cabinet.

Newspaper reports are that the king has outlined a program for the nation upon which all parties will be able to unite. M. Venizelos, former prime minister, whom M. Zaimis succeeded, was cheered loudly by the people as he passed through the streets on his way to the meeting.

Venizelos is strongly pro-allies. The Greek nation desires to remain neutral if their neutrality can be maintained.

All Reports Favor Teutons.

London, Nov. 5.—Bulgaria is pouring re-enforcements into Servia north of Uskub and it is believed that the complete annihilation of the Servian army is planned.

Nish, capital of Servia, has been captured by the Bulgarians, and almost every report from the Balkans is favorable to the Teutons. The German army has been successful in all sections.

British Troops in Servia.

Saloniki, Nov. 5.—It has been announced here that the British troops which were landed here have joined the French forces in the Strumnitza region.

Berlin Reports Continued Success.

Berlin, Nov. 5.—No confirmation has been received that Nish has been captured by the Bulgarians. The Bulgarians have decisively whipped the French in the northeast part of Servia, taking many prisoners.

The Teutonic advance into Servia continues, according to an official announcement from the war office.

VESUVIUS IS RUMBLING.

No Immediate Danger But Villages Have Been Warned to Be Ready.

Special to The Democrat-Forum.

Naples, Italy, Nov. 5.—The small eruptions of Vesuvius which have been going on for several weeks are increasing rapidly. The authorities have notified the villagers in the vicinity that there is no immediate danger.

They are warned, however, to be prepared to move quickly at any time.

Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

Latest version: The melancholy days are here, the shortest of the year.

It has to be said sooner or later by every publication, so let's begin: You have only forty-one more shopping days till Christmas.

Politicians who can prove that so many things are going to happen because of an election ought to study the football scores and see with what remarkable frequency the "dope" goes wrong.

In the report of the attorneys selected to investigate the differences between the powers of fourth class and third class cities is the suggestion that a change might result in the revision of the city's laws. The need of an up-to-date revision of the city ordinances is apparent to all who have business with the city hall. There has been no revision for many years, and the ordinances have not been printed for many years because the city didn't want to spend the money to have them printed. As a result ordinances have been passed from year to year and written into books, and in order to determine what the city law is it is generally necessary to run through the whole list, which is the work of days of tedious research. As a result we doubt if anybody is fully conversant with the city laws, or ever will be, until they are revised, properly classified and printed.

A PRIVILEGE AND ITS COST.

A little more than a year ago an Austrian archduke was killed by a Serbian. The Serbian was an Austrian subject, and Austria had it in her power to punish him in any way desired. He was seized and, according to reports, is still in prison. Punishment of the individual criminal was not deemed sufficient, and the chastisement of the nation that gave him birth was undertaken and this, theoretically at least, was the cause of the greatest war known to history. Noblemen in the ranks have been killed since by the millions and the soil of all Europe is drenched in the blood of its best men. Was the archduke worth the price? Are all the archdukes and princes in the Old World worth the price? Will they ever in all the years to come do a tenth as much to advance civilization as this war has done to set it back? Europe will at length be called upon to decide whether it pays to suffer the horrors to which it has been subjected for the privilege of being ruled by kings and monarchs, dukes, barons and other titled nobility.

BREAKS A COLD IN FEW HOURS—TRY IT!

First Dose of Pape's Cold Compound Relieves All the Grippe Misery—Contains no Quinine.

Don't stay stuffed-up!

Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

Letter to Mr. James T. Cook,
Maryville, Mo.

Dear Sir: The usual way to buy paint is to take the lowest price by the gallon. Mistake; the buyer loses by it; how much? Depends on the paint; it is so much a gallon, or so much a year. How much a gallon or year, do you think? As much, perhaps, as the total price of the paint. It may take twice the number of gallons.

N. Avery, Delhi, N. Y., owns two houses, both exactly alike. He painted one with Devoe and one with another paint. Devoe 6 gallons; the other 12.

Go by the name: Devoe. There's nothing cheaper. Go by the price; there's nothing dearer, except not painting at all. Poor paint is better than none.

What does it cost not to paint at all? Can't figure it out exactly; say a tenth of the building a year, besides looks.

What is poor paint worth, then? Don't know and don't care; you don't want it. Gy by the name.

Yours truly,
F. W. DEVOE & CO.,
New York, Chicago and Kansas City.

P. S.—Koch's Pharmacy sells our paint.

THROUGH PICKING APPLES.

Ford & Klaas of Parnell Received Over $14,000 for Their Apples in Their 80-Acre Orchard.

The following is from this week's Parnell Sentinel about the orchard near Parnell, owned by J. D. Ford of this city and Mr. Klaas of Parnell:

Ford & Klaas finished picking and barreling apples in their 80-acre orchard the latter part of last week. Their principal varieties were Jonathan, Ben Davis, Gano and Missouri Pippin.

They received for their Jonathans $3.25 per barrel and for the other varieties $2.25 per barrel. In all, they had 5,410 barrels. Of this number 2,572 barrels were Jonathans, 1,804 Ben Davis, 872 Missouri Pippins and 222 Ganos. If we have figured it right they received a total of $8,359 for Jonathans and $6,385.50 for the other varieties, making a total of $14,744.50. This does not include the culls they sold at the orchard, which amounted to several hundred dollars. They cleared possibly between $9,000 and $10,000.

SOUTH METHODIST CAMPAIGN.

"One-to-Win-One" Is the Slogan of a New Church Movement.

All Southern Methodists in Missouri united a few days ago at Centenary church, St. Louis, in pledging a brush-beating campaign for 20,000 more church members, and 40,000 new Sunday school scholars.

Every Methodist is pledged to induce another to join the church. The campaign is called "one-to-win-one." The whole day was spent in perfecting the plan, which was adopted unanimously by the three conferences of Missouri.

"Seventy per cent of the trade today is made possible by personal solicitors," said Rev. Dr. C. W. Tadlock, pastor of Centenary church. "So it is in the church. There have been three notable church periods—the period of the martyrs, the period of the monks and the period of the Methodists. The significance of each one is lay activity."

Burial in Lexington.

The funeral services for Robert B. Flynt, who died in Kansas City Wednesday morning, were held today at Lexington, Mo., and the services were conducted under the auspices of the Masonic order. Mr. Flynt was the father of F. L. Flynt, city engineer, and he attended the services.

Mrs. Sarah Kelly of this city left for Los Angeles, Cal., this morning for an extended visit with her daughter.

DON'T WANT WAR BONDS

Local Banks Say Money Is Needed in West for Crops and Enterprises of This Region.

Circulars have been received by the local banks from J. P. Morgan & Co., of New York, in regard to the Anglo-French half billion war loan which is being handled by that company. The local banks, however, are not going to carry the bonds, and, in fact, there are but few places in the middle west where the bonds will be distributed.

The local bankers say that Missouri and the middle west needs what money they have to supply needs here. A list of the places carrying bonds is contained in the circular.

In Illinois there is but one bank that has the bonds, although several trust companies are agents, and in Missouri there is but two trust companies and no banks handling them. Michigan has two banks circulating the bonds and Wisconsin a trust company. Iowa has none.

Joseph Jackson of the First National bank says that the west can use all its money in road bonds and in moving crops and doesn't want war bonds.

BLUE GRASS THRESHER.

Iowa Seed Man Says Burlington Junction is Good Location for Blue Grass Seed Machine.

Webb McConnell, proprietor of the Green Valley seed house at Harlan, Ia., was in Burlington Junction Tuesday afternoon looking over the field with a view of locating his blue grass thresher and recleaner in Burlington Junction or the immediate vicinity, says the Burlington Junction Post.

In conversation with a representative of the Post, Mr. McConnell said that this was the center of a great blue grass district, the reputation of which had traveled far, and he has practically decided on locating one of his two machines here in a few weeks. C. D. Caldwell has about 3,000 bushels of seed and there are other small quantities in this locality.

A blue grass thresher and recleaner is something the general public is not familiar with. There are only nine of these machines in the whole country, and no one except the owners know how they are built. There is no patent on them, and the secret of making the machine is guarded as carefully as possible. All the moving machinery in sight on the thresher is a pulley. So the machines are seldom moved, on account of the trouble and expense, and the fact that the cat might get out of the box.

Mr. McConnell has two of the machines. For several months the A. A. Berry Seed company of Clarinda had urged him to bring one of the machines there and he finally agreed to move it, providing a certain amount of threshing would be furnished. He has just finished threshing and cleaning the Berry seed, 9,000 bushels in all.

As will be seen by the following figures, the machine will prove profitable to every man that has a bushel of blue grass seed. Mr. McConnell charges 14 cents a bushel for threshing and recleaning the seed. When the rough seed is selling at 65 cents, the recleaned seed is worth about $1.25. Allowing for the price of threshing and the shrink, the farmer will be ahead on an average of 25 cents a bushel on the price of his blue grass seed.

Mr. McConnell also sells and rents blue grass strippers, buys blue grass seed—in fact, is a thorough blue grass seed man, and if he locates here he will boost a business along that has been largely neglected in this locality.

The Burlington Junction Post says that W. H. Cluster threshed for himself and for Jeff Graves the first of this week. This finishes the threshing for this year east of the Junction.

SUNDAY GREAT S. S. DAY

PROGRAM INDEPENDENCE TOWNSHIP AT GAYNOR CITY.

Polk and Union Will Also Organize Same Afternoon—Changes in Pickering Speakers.

Sunday is to be a big day in the history of Nodaway county Sunday schools. Three important township meetings will be held that afternoon. Polk township will meet in the Christian church here with L. M. Strader in charge.

H. C. Bower, president of the county organization, will do a quick change act by speaking at the beginning of the meeting in Pickering and then motoring to Maryville in time to organize Polk township at the close of the meetings.

Miss Eva Davis, secretary of the association, will have charge of the program of the Independence township schools, to be held at Gaynor City at 2:30 Sunday afternoon. She will be assisted by Miss Elizabeth Evans. Two changes have been made in the program for Union township at Pickering, which was printed last Saturday. W. M. Hall and James N. Jones will exchange subjects, and an addition has been made. Mrs. John Morehouse, superintendent of the home department of the county association, will speak on "The Home Department and Its Relation to the Sunday School."

Independence Township Program.

The program to be given at Gaynor City is:

2:30—Devotional service, led by Rev. W. E. Tinney.

2:45—"The Rural Church—a Community Center," by Mr. Hope of the Gaynor City Baptist church.

3:05—"The Importance of Trained Teachers," by a member of the Parnell M. E. church.

3:25—"The Adult Class—How to Interest Men," by T. E. Young of the Gaynor City Christian church.

3:45—"The Superintendent and His Helpers," by Paul Caudle of the Gaynor City M. E. church.

4:05—"How to Keep the Teen-Age Boys and Girls in Sunday School," by a member of the Maple Grove Sunday school.

4:25—Special music.

4:30—"Co-Operation," by Miss Elizabeth Evans, superintendent of the elementary depaitment of the county association.

4:50—Organization of Independence township by county officers.

4:55—"The Organization of Sunday School Workers in Nodaway County," by Miss Eva M. Davis, secretary of the county, with illustrations from a map prepared by her.

5:10—Round table discussion, led by James LaFavor, Parnell M. E. church.

Evening Program.

7:30—Praise service and devotional exercises.

8:00—Sermon by Rev. W. E. Tinney.

PREDICTS NEW HOLY WAR

Turk Says Kaiser Will Ask Sultan to Call Islam If He Needs Them.

London, Nov. 5.—"Britain and her Allies will never take Constantinople Their policy in the Balkans has been stupid and suicidal. Before they beat the Turkish Empire they will be faced with over forty millions of Moslems, for a world wide Jehad, or holy war, is now in course of preparation."

This was the statement today of Mr. Kahide, a prominent Turkish merchant who has recently left Constantinople. He ranks high among his compatriots as a Mohammedan who has made a pilgrimage to Mecca. He declares that the peril of a great holy war is imminent.

"The preparations for a Jehad," said Mr. Kahida, "have been going on since 1911 when Italy attacked Turkey. So far as Turkey is concerned in the present war she has little money to continue, but she is receiving support, and the nation itself is rich, and the people are intensely patriotic.

"The army is a perfect fighting machine as the British and French now in Gallipoli have admitted. The rulers of the Ottoman Empire recognize that this is likely to be a fight to the death, and in the last resort, should there be a sign that Turkey is likely to be beaten there still remains the last resort. That effort would be the greatest of all, and would effectively paralyze the enemies of Islam. All arrangements have been made to put this into effect, and call a holy war."

If You

are troubled with heartburn, gases and a distressed feeling after eating take a Rexall Dyspepsia Tablet before and after each meal and you will obtain prompt relief. Sold only by us, 25c

THE BUSY STORE WITH LITTLE PRICES

BUSY ON THE ROADS.

Nodaway Township Has Big Force of Men at Work On Grading the Roads.

According to the Burlington Junction Post, Nodaway township is making up for lost time on the roads, five forces of men now being employed at different places in the township, working and grading the roads. The big old grader that requires eight horses to pull it was hauled out on the road with an extra force to use it.

The township board of that township is considering buying a power grader. C. D. Caldwell has offered the board the use of his big tractor, the only expense to the board being the engineer's wages and the fuel.

Mt. Ayr church will give an oyster and chicken pie supper Saturday, November 6. 4-5

PREVENTABLE BLINDNESS

Committee Will Try to Arouse National Sentiment on Great Problem of All People.

New York, Nov. 5.—To make the fight against preventable blindness an effective national movement, the National Committee for Prevention of Blindness is holding its first annual meeting at the Academy of Medicine this afternoon.

Although organized only nine months ago the Committee has already coordinated the activities of societies in thirteen states and expects to push the work in every state in the union.

This Committee's organization came about through the need of a national bureau of information and correlation. All over the country local societies have sprung up in the past six years, engaging the attention of both physicians and humanitarians in the effort to reduce the number of cases of needless blindness in children. The Committee says that half of all blindness is unnecessary and that only ignorance and carelessness are responsible for this burden upon the individual, society, and the state. The Committee proposes as its object the study of the causes of preventable blindness and impaired vision and the means and methods of prevention, publication of findings, lectures and popular education.

The committee numbers among its sponsors Joseph H. Choate, Dr. Abraham Jacobi, Miss Winifred Holt, Miss Jane Addams, Miss Helen Keller, Mrs. Ella Flagg Young, Dr. David Starr Jordan, Theodore Roosevelt, and Senator Thomas P. Gore. Its board of directors include Bryan Lathrop of Chicago, James P. Munroe of Boston, Miss Julia Lathrop of Washington, Dr. Hiram Woods of Baltimore, Dr. F. Park Lewis of Buffalo, and Dr. J. A. Shawan of Columbus.

Land Sold for $136 an Acre.

Marion Graham sold the 40-acre farm three miles south of Burlington Junction to George Curry of Hopkins this week, the consideration being $136 an acre. The transaction was made through the medium of the J. E. Rhodes real estate agency.—Burlington Junction Post.

CONVERT CHINESE TO AID SUFFRAGE

Woman Uses Native Flag In New York Campaign.

BANNER WARMLY GREETED.

Goes From House to House Telling Alien Inhabitants of Equality For Men and Women—One Chinese Voter Declares He Would Like Wife to Be an American Citizen.

New York.—Miss Lavinia Dock of the Henry street nurses' settlement has undertaken to convert Chinatown to suffrage with Chinese flags. The psychology of the flag is an interesting study. It is hard at times to pierce the apathy, the stolidity of the alien inhabitants of a great city like New York and to arouse among them an interest in a cause not primarily and originally their own. But there is one universal, never failing method—and that is to display the flags of those foreign lands whence they came. So Miss Dock unfurls a beautiful white silk Chinese banner bearing the votes for women message on both sides. A kindly missionary man and a cultured Chinese doctor helped make the banner, which is attached to its standard by gay ribbons of old rose, light blue

Photo by American Press Association.

MISS LAVINIA DOCK.

and bright yellow, these with black and white being the colors of the new Chinese flag.

Flag in hand, the suffragists go out into the highways and byways with their message of equal political rights and responsibilities for men and women. "First class," said a smiling faced, prosperous looking Chinaman in well cut American clothes as he greeted the suffrage banner. "First class, I believe in that," he repeated, and other Chinamen smilingly nodded assent.

As the banner moves on pleased nods and bows greet its progress. Into a dark doorway and up the stairs marches Miss Dock, holding her suffrage banner before her. "Our nurses come here often to look after the children," she explains.

Through a crowded kitchen and into a room in the front of the house she marched. "May we come in?" asked Miss Dock. A guttural sound signified assent. A young woman with a much embroidered and solemn faced baby looking like an infant mandarin sat at one end of a table between the windows. At the other window sat an older woman sewing. Both women wore native costumes. Neither could speak English. The younger woman went out of the room and soon returned, bringing her sister, a girl of fifteen, who goes to high school. She listened to Miss Dock a moment and then a smile broke out all over her face. Yes, indeed, she knew about the suffrage campaign, and she believed in votes for women. Then she turned and spoke rapidly to her mother and sister-in-law. Immediately their faces changed, the glumness vanished and they beamed upon the callers. They, too, believed in votes for women; yes, indeed, and so did their husbands.

Out on the street again and up into another house marched the Chinese banner with its message of equality for men and women. Here was a Chinese woman of high degree. Heiress to all the traditions of old China, nevertheless she has her face set toward the promise of the years to come, and she believes in equal suffrage. To be sure, as Miss Dock explains, there are not so very many registered voters in Chinatown, but even though they be but few they are going to receive the message. They are interested in it too. One full blooded Chinese voter born in this country expressed the new ideal for women as he sees it: "I would like my wife to be a citizen."

Bee Sting Got In Her Tonsil.

Kingman, Ind.—Mrs. Edward Reath was the victim of an unusual accident when she was stung by a bee which she swallowed when eating grapes. The insect in its eagerness to suck out the pulp of the grapes had crawled inside the skin and was not discovered by Mrs. Reath until it objected to being made a Jonah and inserted its stinger in one of the tonsils in her throat. The tonsil swelled badly, and the services of a physician were required to remove the stinger.

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance an incomparable gloss and softness; but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. 10-8-15.

CORN SHOW PRIZES $886.20.

State to Pay 30 Per Cent of Farm and Domestic Science Awards.

The Nodaway County Domestic Science association this year spent in premiums and souvenirs $886.20, according to a report which is just being finished up. This amount includes $195 which is yet to be paid out in the acreage yield contests; which cannot be decided before the 20th of November. The souvenirs of the show this year, which were given to the boys and girls exhibiting who did not win prizes, were knives and silver thimbles.

The county is entitled to 30 per cent of the amount from the state and a bid is being made for the funds which the county should draw. This bid accompanies a report with an itemized statement of each prize, the amount, and to whom and for what paid.

HAYS EXPECTS LIGHT FEEDING.

Skidmore Man Says Corn is Plentiful But Inferior Quality.

John G. Hays, a prominent farmer and stockman of Skidmore, Mo., was a visitor at the yards today, bringing in a mixed load of cattle and hogs. Mr. Hays says the volume of winter feeding in his section will be light. Corn is fairly plentiful, but of inferior quality, he reports.

The following patrons had in consignments of stock from Nodaway county: R. F. Wells, Eugene Humphrey, C. H. Roach, W. B. Herring, C. M. Bloom, William Hartman, Ward Walker, Joe Halker, Edgar Rhodes, A. E. Jones and John G. Hays.—Stock Yards Journal.

MRS. A. M. HOPPER VERY LOW.

Lingering Illness From Heart Disease May End Soon.

Mrs. A. M. Hopper is lying at the point of death at her home. She has had a lingering illness of eight weeks from organic heart trouble.

The end has been expected any time since her son and wife, Mr. and Mrs. C. E. Hopper of Garden City, Kan., arrived two weeks ago. They moved to Maryville about three years ago for the benefit of Mrs. Hopper's health.

Named On Committees.

Prof. G. H. Colbert and Prof. S. E. Davis of the State Normal school, who are attending the State Teachers' association in Kansas City this week, were selected as members of important committees of that association. Mr. Colbert was named on the nominations committee and Mr. Davis on selecting a place for next year's meeting.

New Garage at Junction.

George McKnight is building a new garage at Burlington Junction on his lots that he purchased from J. H. Sewell of this city and Davis & Caldwell. The dimensions of the building will be 80 feet wide by 90 feet deep. It will be completed by December 1.

Visiting Her Daughters.

Mrs. J. K. Sawyers, two sons and daughter, and Mrs. Winfield Scott left this afternoon for a visit with Mrs. Sawyers' sisters, Mrs. H. A. Sawyers of Savannah and Mrs. Elmer McJimsey of St. Joseph.

C. S. Dougherty brought the largest load of wheat to town Tuesday that has been marketed at Elmo this year. There was 50 bushels and 20 pounds in the load, it tested 55, and brought 80 cents, which is good for this year.—Elmo Register.

There will be a boxing match at Conception Junction on Saturday evening at 8:30 o'clock between Jack Peters of New York City and Jackie Moore of Columbus, O., for the colored lightweight championship of America.

PHONES—OFFICE 42. HOME 683

Yuletide Sale.

The Ladies' Aid society of the First Christian church will hold their second Yuletide sale at the church December 1 and 2. Fancy and useful articles and a special line of rugs will be on sale.

W. R. C. to Meet.

The regular meeting of the W. R. C. will be held at 2:30 o'clock Saturday afternoon. All members are requested to be present at the stated time, as the inspector, Mrs. Tory of St. Joseph, will leave on the afternoon train. Refreshments will be served.

Meeting Postponed.

The meeting of the D. A. R. chapter has been postponed from tomorrow afternoon to Saturday, November 13, when Mrs. Joseph Jackson, Jr., Mrs. J. A. Ford and Misses Julia and Jeanette Tate will be hostesses at the home of Mrs. Jackson.

Guests at House Party.

Miss Ruth Montgomery left Friday morning for Ames, Ia., where she will be a guest at a Phi Gamma Delta house party. Miss Helen Dunn of Bolckow is also a guest at the party. Miss Montgomery will go to Aurora, Ill., for a visit with Miss Harriett Sheets before returning home.

For Newly-Weds.

A dinner dance complimentary to Mr. and Mrs. Eldon W. Irvin, who were recently married, was given last evening at the Elks club by the members of the club, their wives and lady friends. There were sixty-five diners, and after the meal had been served Augustus Romasser welcomed the newlyweds to the ranks of married people in a very able talk. Dancing followed until a late hour.

A Dinner Party.

Mr. and Mrs. George Ellsworth of Ravenwood entertained at 12 o'clock dinner Thursday. Plates were laid for Mr. and Mrs. A. J. Anderson, Mrs. G. R. Epperson, Miss Martha Ellsworth, who motored to Ravenwood in the Anderson car, Mrs. Mary Andrews of Sheridan, sister of Mrs. Ellsworth, Mrs. Leslie Rhodes, Merle Ellsworth, host and hostess. Mrs. Anderson, Mrs. Andrews and Mrs. Ellsworth were schoolmates together in Illinois.

Miller Dinner Party.

Mr. and Mrs. Elwood Miller entertained a number of guests at dinner Sunday at their country home, north of Graham. Those present were Mrs. Minnie Gaukel of Skidmore; Mrs. Joseph Cornell and baby son of Maryville, Mr. and Mrs. John Gaukel, Mrs. Amy Bailey, Minnie, Lorena, Emma and Clarence Gaukel, Mildred, Clara Opal, Floyd and Orville Bailey. Several neighbors joined the company in the afternoon.

Hallowe'en Party.

A very pleasant Hallowe'en party was given at the home of Mr. and Mrs. Will Fox by Miss Fern Blakesley, when she entertained the Earnest Workers class of the M. E. Sunday school of Wilcox. The rooms were beautifully decorated in autumn leaves and foliage. On arrival the guests were ushered upstairs to black and red tents, where witches told fortunes. Everyone was masked and the occasion was very much enjoyed by all. Those present were Mr. and Mrs. Elihu Carter and sons, Mr. and Mrs. R. P. Ferguson and daughter, Alma; Mr. and Mrs. Will Fox, Misses Florence Moore, Ethel Stoner of Sheridan, Dora Smith-Hazel McComb, May McGinnis, Nettie, Violet and Josephine Jensen, Gladys Owens, Mamie Cummins, Fern Blakesley, May Mitchell, Messrs. Tom Smith, Remus Jensen, Burl and Cleo Mitchell, Dave D. Zeornes, Robert Noakes, Gus Shell, Frank McComb, Harold Thompson, Don Hall, Emmett and Will Cummins, James Tobin, Edwin Sapp, Ben Gossard, Floyd Logan and Hubert Smith.

Entertains Ladies' Aid.

The Ladies' Aid society of Palestine church met Wednesday in an all-day session at the home of Mrs. John Neal. The day was pleasantly spent in sewing and visiting. At the noon hour a delicious dinner was served which was greatly enjoyed by all, especially Will Gex, who appeared just in time for dinner, dressed in a bright red kimono and blue sunbonnet with a clothes pin bag, containing a roll of binding twine and sheep shears, swinging on his arm. The members present were Mrs. Robert Gex, Mrs. Peter Brown, Mrs. Henry Anderson, Mrs. Oliver McNeal, Mrs. Will Gex, Mrs. Otis McNeal, Mrs. Gaylord Dilts, Mrs. Wilson Ellsworth, Mrs. Noble Norris, Mrs. Frank Lyle, Mrs. Dick McDowell, Mrs. Clarence Charles, Mrs. Will Mountjoy, Mrs. Theo Snowberger, Miss Lizzie Russnogle and Miss Minnie Farmer. The guests were Mrs. Jacob Shambarger, Mrs. Alex Lyle, Mrs. L. Haist, Mrs. Thornton Acklin, Mrs. Sumner Shockley, Mrs. Charles Wood, Mrs. Gould Hayzlett and Mrs. Virginia Mitchell.

Smith Funeral Held.

The funeral of Mabel Ida Smith, daughter of C. C. Smith of 508 Prather avenue, who died in St. Joseph Wednesday afternoon, was held at the Smith residence at 2:30 o'clock this afternoon.

The funeral was conducted by Rev. Alex Holt and interment was in Miriam cemetery. A quartet composed of Mrs. F. P. Robinson, Mrs. John D. Richey, H. J. Becker and W. E. Goforth sang at the services.

Mrs. J. W. Cornell has returned from a week's visit with relatives at Skidmore and Graham.

A "MEDICAL EXAM" DAY

Tuberculosis Society Sets December 8 As Time for Nation to Call in the Doctors.

In a plea for every man and woman in the United States of adult age to join in a movement for annual or other periodic medical examination of themselves, which will be launched December 8, The National Association for the study and prevention of tuberculosis presents figures in a bulletin issued today which show that practically 100 per cent of the supposedly well people of the United States over 30 years of age have some physical defect or impairment. About 70 per cent of these impairments were of a more or less serious nature. There were besides about 30 per cent of defects of a minor character.

The figures which the National Association presents are based upon the careful studies recently made by the Life Extension Institute among two highly specialized groups of people, the first group consisting of workers in the Ford Motor Company of Detroit, and the second group consisting of employes of commercial houses, banks and trust companies in New York. The records of these examinations show that practically none of those examined, men and women, are normal in the strict sense of the word. Another striking fact in the examination is that only 10 per cent of those who were impaired were aware that there was anything the matter with them. This fact alone, the National Tuberculosis Association points out is sufficient to make every man and woman in the United States give careful consideration to the necessity for at least one physical inventory of his entire body a year.

The largest group of more or less serious impairments discovered were those showing sugar, albumen or casts in the urine. More than 45 per cent of the above-mentioned groups showed defects of this nature. In the same groups about 23 per cent showed abnormal blood pressure, while nearly 27 per cent showed combined disturbances of circulation and kidneys. Organic heart disease, thickened arteries, lung trouble leading to possible tuberculosis, nervous affections, digestive troubles and venereal disease were among the other impairments discovered, practically all of which had escaped the notice of the individuals examined.

During Tuberculosis Week which will be celebrated throughout the United States from December 6 to December 12, a national medical examination day will be observed on December 8. Groups and individuals will be urged to make arrangements for physical examination on that day. A circular describing in detail how the advantages of medical examination day may be obtained and indicating certain physical impairments which every one should look for will be sent on request from the office of The National Association for the Study and Prevention of Tuberculosis, 105 East 22nd Street, New York City.

"CASCARETS" FOR A COLD, BAD BREATH OR SICK HEADACHE.

Best for Liver and Bowels, for Biliousness, Sour Stomach and Constipation.

Get a 10-cent box now.

Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their litle insides need a good, gentle cleansing ,too. 10-8-15

"COUNTY UNIT" IN SCHOOLS.

State Teachers Urge Plan to Equalize Education.

Kansas City, Nov. 4.—Organizing schools by counties and wiping out district lines will be favored by a committee to report to the Missouri State Teachers' association here Thursday, Friday and Saturday. The county unit plan is supported by the leading educators because it offers children equal educational facilities.

Under the present plan of each district taxing itself and supporting its own school separately, the committee says, a child on one side of a road may be taught by a highly paid and efficient teacher, while across the road in another district may live a child taught by an underpaid, inefficient teacher. Often a railroad makes a districts valuation many times that of others. Under the county unit plan all would have equal schooling. The principal objection to the system is that it takes away the self rule of each district. The report is expected to stir up quite an argument in the convention.

"I Don't Feel Good"
That is what a lot of people tell us. Usually their bowels only need cleansing.

Rexall Orderlies

will do the trick and make you feel fine. We know this positively. Take one tonight. Sold only by us, 10 cents.

Otis Harlan, King of American Comedians, Writes of the Personal Side of Charles Hoyt, Playwright

By OTIS HARLAN.

In the spring of 1887, at the Neil House, Columbus, Ohio, I first met the late Charles Hoyt. It was before I ever thought of going on the stage; I had been in Columbus for the wedding of a school friend. Jim Miller, an old circus man, then manager of the old Metropolitan opera house, Columbus, introduced me to Hoyt.

That evening in the historic old hotel I entertained Hoyt and some acquainances with some comic "cut ups" for which I had a peculiar talent. I lived then at Zanesville, Ohio. I was about to leave for home next day when Hoyt called. To make a long story short, he put me in his play "A Hole in the Ground." He was in Columbus rehearsing for the opening.

I remember that Hoyt was taken into the Elks lodge in Columbus the night before we opened. Flora Walsh was Hoyt's leading woman and he married Flora on July 25, 1887. She was seventeen on July 24th and Hoyt was twenty-seven on July 26 and they selected the day between for the wedding day. Charlie Reed, an old minstrel man, Fannie Stevens and I were at the wedding, which occurred at Charleston, N. Y

"A Bunch of Keys," Hoyt's first success was suggested by Willie Edowin, who in later years starred in "Flora-dora." Hoyt never got a cent of royalty for writing the play.

"A Parlor Match" was developed by Hoyt from an old skit called "The Book Agent." This skit belonged to Evans & Hoey. The first real financial success that Hoyt enjoyed was his play "A Rag Baby." He had written a piece called "Cezella," founded on a mythical patent medicine. It was never produced right and it became the theme for the last play Hoyt ever wrote, "A Dog in a Manger."

In 1884 Hoyt wrote "A Case of Wine," which was played in Texas by Charles Bishop. "A Case of Wine" later proved the foundation for Hoyt's play "A Texas Steer," recently filmed with great success by the Selig Polyscope company.

While we were playing "A Hole in the Ground," opening September 14, 1887, in the Fourteenth Street theater, New York city (my first appearance in New York city as an actor), Hoyt started writing "A Midnight Bell," which was first produced in Frisco by L. R. Stockwell in his stock company. Hoyt saw its possibilities and then produced it in the East.

Charles Hoyt had a way of writing about his players' personality and it was while "A Hole in the Ground" was on the boards that he wrote "A Brass Monkey" and put me in to do the song "Razzle Dazzle." The writer of this song, Wm. Barton, was so pleased that he made me a present of the song "The Wild Man of Borneo," which we did in "A Brass Monkey."

Hoyt always produced his pieces for two weeks in the spring around New England, then remained for a week in Jersey City, then closed for the summer, almost ready to produce the piece without change in the fall. Any alterations in the plot he would make in the summer months.

Hoyt has an unusual method of developing his plays. He would begin by telling his intimate friends about an idea and it was wonderful how he would enlarge it. Every time Hoyt told his idea he had some new comedy interest and he built up his plays by telling it over and over again. He would then sit down and write an entire show in two or three days for he had all the construction in his mind.

I have seen Hoyt sit in our Pullman sleeper, even in the day time, with the window shade drawn down over his head, looking out, but seeing nothing but the funny ideas that were tumbling out of his fertile brain. He was undoubtedly the most prolific and most successful playwright that American has ever known. He wrote all of his manuscripts in long hand, later having them typewritten.

Hoyt was a man difficult to approach. His most intimate friends never called him "Charlie." As a man he was cold and reserved. Frank McKee, his partner, even called him "Mr. Hoyt." He was also most economical with the pay roll. For three years I drew $25 weekly. He liked to split the difference in salaries as for example: One actor demanded $40 weekly and got $35, another asked for $35 and got $32.50. But outside business hours, in the cafe or the dining room, he corralled all checks. In business he was close, in social life unusually liberal.

Flora Walsh, loved by everyone, died in Boston while we were playing "A Texas Steer." Hoyt's second wife, Caroline Miskel Hoyt, died in New York city, while we were playing "A Day and a Night."

Poor Charles Hoyt died at Charleston, N. H., in November, 1900. Governor Rollins of New Hampshire had been petitioned to investigate his case by the people who asserted that Hoyt was not insane, but was being kept in charge for some ulterior purpose. I had called upon Hoyt previously and knew that he was not in his right mind. I have seen him shave himself, in his later years, while wearing a hat and overcoat in sultry weather. He was undoubtedly losing his mind for several years before anyone appreciated the fact. He had a horror of the fleur de lis. Did he spy the device at any time or place he would beat a hasty retreat. He could be very sarcastic at times.

Hoyt had a great fund of stories and his humor was wonderful. Everything seemed to strike his funny side. Even the names of his characters were studies in true humor.

"A Trip to Chinatown" was Hoyt's first failure. It failed to make any money on its preliminary presentation. Hoyt took the show to New York city, engaged the Madison Square Garden, put in a good cast and it went over and was the biggest hit he ever had. Society had never seen that class of stuff in those days.

There is no case on record where Hoyt ever wrote a play for a star. He didn't like to write for people he did not know well. He started "A Black Sheep" for William Hoey and with reluctance. Before the contracts were signed there was a hitch and Hoyt tore up the contract. Then he sent for me. He told McKee in my presence that he would rather write the play around my personality. "A Black Sheep" was a great success.

"A Contented Woman" was written for his wife. It is as up-to-date today as it was years ago, for it deals with suffragettes. You have perhaps noticed that all of the Hoyt's comedies start with "A." It was just another one of his peculiarities.

It is worthy of notice that one of the Hoyt plays "A Black Sheep," in which I achieved one of my biggest hits as an actor, is to be released as a Selig Red Seal Play. Little did I believe when acting in this comedy that I would again appear in the production as a motion picture star.

Chicago, Nov. 5.—John Shedd, for many years president of the Marshall Field stores, was elected chairman of the board of directors of the Rock Island railroad today.

POUNDS THE SPINE TO REDUCE LARGE HEART

Contraction Usually Follows Quickly, Says Professor.

Philadelphia.—Enlargement of the heart—the "athletic heart"—may be reduced by simply tapping the spine with a hammer, according to Professor Meyer Solis-Cohen of this city. He described the treatment in the New York Medical Journal. Of course it should not be attempted save by a physician.

The tapping should be done, he says, on the "spinous process of the seventh cervical vertebra," which in every day English is the protruding vertebra in the spine at the bottom of the neck, a little above the shoulder line.

To protect the spine from the direct shock of the blow Professor Solis-Cohen has usually used a rubber eraser or a piece of soft rubber or linoleum about six inches long, one and a half inches wide and about a quarter of an inch thick.

Putting this deadener against the spine at the point indicated, he gives a series of sharp and vigorous blows with an ordinary hammer that has a rubber tip or with a jeweler's hammer. In an emergency he lays his fingers on the spine and then beats the fingers with his fist.

This exercise on the spine is usually followed, he says, by a contraction of the heart and of the aorta, which latter is the big artery that comes out of the top of the heart and supplies the entire body with blood.

"I have been exciting this reflex," he says, "in many cases of dilated heart and aorta in both private and hospital practice. There were several failures, chiefly in children suffering from endocarditis (inflammation of the lining of the heart) and resulting myocarditis (inflammation of the tissues of the heart), with loss of compensation, conditions in which the heart and aorta usually failed to contract on concussion.

"In most cases the response was marked, a lateral contraction of over an inch being usual and of over two inches being not uncommon."

Of the cases treated and used as examples of the success of the method eleven were male and five female. One was under ten years of age and four were under twenty. Six were over fifty, one being seventy.

Sixty-two, She Wants Divorce.

St. Paul.—Desertion and nonsupport are charged in a suit for divorce recently filed in district court by Mrs. Augusta Geldermann, sixty-two years old, against Fritz Geldermann, sixty-three years old, a blacksmith. The Geldermanns were married April 17, 1900, and the wife alleges her husband left her in September, 1914. She asserts that during the first years of their married life she worked daily as well as he.

DAILY DEMOCRAT-FORUM

NEWS DISPATCHES FROM THE INTERNATIONAL NEWS SERVICE.

VOLUME 6. MARYVILLE, MISSOURI, FRIDAY NOV. 5, 1915. NO. 133.

THIRD CLASS CITY CHARTER PROPOSED

COMMERCIAL CLUB COMMITTEE URGES CHANGE.

OTHERS THIS SIZE HAVE SUCH RANK

Makes More Officers Elective and Provides for Many Minor Advantages in Government.

That Maryville should be a city of the third class instead of the fourth class, which she is now was the opinion of a number of the members of the city council and the Commercial club at a meeting held last evening at the Commercial club room. The report of a committee composed of lawyers was read, in which was pointed out the advantages that would be had by being a third class city. This report will be read before the city council at their regular meeting this evening, and action will probably not be taken until their next regular meeting in December.

To make the change from a fourth class city to the third class, it would be necessary to submit the matter before the voters at an election, only a majority being necessary for the adoption.

The report of the committee is as follows:

To the Board of Directors of the Commercial Club, Maryville, Mo.: We, your committee appointed to consider and report upon the advisability of adopting a charter of a third class city for the city of Maryville, in lieu of that of a fourth class city, beg leave to report as follows:

We find, among several minor points, the following vital differences between the charters of third and fourth class cities:

First—Under the third class charter the mayor, marshal, city attorney, police judge, assessor, collector and treasurer, are elected by the people, while under the fourth class charter only the mayor, marshal, and collector are by law elected by the people, but by ordinance the assessor, city attorney, city clerk and street commissioner may be elected by the people.

Second—In the third class cities the qualifications of mayor and aldermen are as follows: The mayor must be at least 30 years of age and a resident of the city for at least two years; aldermen must be 25 years old, residents of the city one year and of the ward six months. In cities of the fourth class the mayor must be 21 years of age and a resident of the city one year; aldermen must be 21 years of age and residents of the city one year.

Third—All elections in cities of the third class are held under the general election laws of the state, and the provisions of the Australian ballot system obtain, which is not the case in fourth class cities.

Fourth—Under the charter of cities of the third class the mayor and city assessor are by law entitled to seats on the county board of equalization, when said board is sitting for the purpose of equalizing the assessments of property located in such city, and each have a vote in said board.

These are only a few of the differences existing between the two classes of cities, and your committee is of the opinion that the fact that under the charter of third class cities nearly all city officers are elected by the people would be a sufficient reason for changing from a city of the fourth to a city of the third class. Much of the misunderstanding attendant upon the matter of city appointments would be avoided by adopting a third class charter.

There is an urgent need, right now, for a revision of the ordinances of the city of Maryville, the present revision having been made in 1903. Since that time a mass of ordinances have been passed, and it entails much research to find just what is the statutes of the law upon many subjects relating to the city, and often a search of the records will fail to disclose just the exact status of the law.

This could be very economically remedied by the passage of a complete code of ordinances for the government of the city, should a third class charter be adopted, and we believe the cost of the election and the passage of the new ordinances could be accomplished with less expense to the city than would be incurred in revising the present ordinances.

Again—The city of Maryville is the only city in its class in the state, as to population, which is operating under a fourth class charter, and our opinion is that this is another very cogent reason for the change to a third class city.

Our prestige would be immensely enhanced should we join the ranks of such cities as Independence, Cape Girardeau, Kirksville, Columbia, Springfield, Carthage, Webb City, Moberly, Sedalia and Jefferson City, and we believe that our importance commercially, educationally and from every other standpoint ought to prompt us to advance to the position to which we justly are entitled.

Dated at Maryville, Mo., this 4th day of November, 1915.

JAMES S. SHINABARGAR,
WILLIAM H. CRAWFORD,
THOMAS A. CUMMINS,
MARSHALL E. FORD,
Committee.

DEATH OF JOHN HAMILL.

Funeral Will Be Held at St. Patrick's Catholic Church Tomorrow Morning at 9:30 o'Clock.

John Hamill died at 8:45 this morning at the home of his sister, Mrs. Dan Gallagher, on South Buchanan street, after an illness of several months. The cause of his death was cancer.

The funeral services will be held tomorrow morning at 9:30 o'clock at St. Patrick's Catholic church, to be conducted by Rev. Father Henry F. Neimann. Burial will take place in St. Patrick's cemetery.

Mr. Hamill was 73 years old and was a native of Ireland. He immigrated to America at an early age and came to Maryville many years ago. He was a brother of Peter Hamill, formerly in the saloon business here, but who is now living in Oklahoma City.

Hold 3 For Investigation.

Deputy Sheriff Gabe Purcell picked up Tom Miller, Bert Riggs and Peter Rutz at Conception Junction yesterday and they were brought to Maryville and placed in the county jail, being held for investigation.

Death of Cousin.

J. K. Sawyers of this city received word at noon today of the death of his cousin, Mrs. Jennie Noble of Bosworth, Mo., who died at 12:15 o'clock. He is expecting to attend the funeral, which will probably be held Sunday.

TONIGHT FERN THEATRE 5 and 10c

GAIL KANE

Late Star in Seven Keys to Balpate, and the Miracle Man in Clyde Fitch's great drama "HIS GREAT MATCH."

MEN TO FEDERATE

BAPTIST CLUB PROPOSES UNION OF BROTHERHOODS.

MAYOR HEADS COMMITTEE

Wright Mentions Liquor Fight in Recommending Movement—Mock Trial a Good Farce.

The spirit of federation is in the air, it seems. Now it's the men who want to unite. The Men's Brotherhood of the Baptist church, after a speech by Mayor U. S. Wright last night, voted to propose a federation of the Men's clubs of the Protestant churches to the other brotherhoods.

The mayor was appointed chairman of a committee to meet with representatives of the other churches in case favorable action is taken by the other clubs at their regular meetings. Mr. Wright said in his speech that there are many things which the men of the churches should meet and try to solve collectively.

He mentioned the saloons in particular, and the liquor election next summer as one of the reasons why the men of the churches should perfect a strong organization. Better gospel team work and more evangelism by laymen was advocated as other problems to be met by the men as a whole.

The meeting last night was the regular monthly banquet of the Baptist Brotherhood. Almost 100 men were there. A mock trial immediately after supper was the entertaining feature of the evening.

Mock Trial Makes Fun.

Ed Brewer, job printer in The Democrat-Forum office, was arrested, charged with the crime of putting a misleading picture upon the tickets which were printed for the banquet. The picture was a little figure of a waiter carrying a tray with a tall jug which looked suspiciously like a beer stein and a glass of the general shape of a wine glass.

Dr. K. R. Malotte, president of the brotherhood, was prosecutor, and the case was tried before "Judge" L. C. Gann. Charles Hyslop defended the prisoner. The defense was that the tall mug was a coffee pot and the glass was for milk. This was shattered by the prosecution, however, when witnesses were produced from those present who testified that they had bought the tickets thinking that something else was to be served.

A jury of six good men and true found the criminal guilty on their first ballot and the judge sentenced him to a fine of rolling a peanut across the floor with his nose. He refused to pay the fine and was sent to jail.

Visiting Preachers to Be Here.

The pastor, Rev. L. M. Hale, was not present, as he left yesterday for Canton, Mo., where he will assist the Baptist pastor there in a revival meeting.

Next Sunday morning the pulpit of the First Baptist church will be filled by workers from the State Anti-Saloon League. Next Sunday evening Rev. Emmett Estes, pastor of the White Cloud church, and the White Cloud congregation will hold a service with the Maryville Baptists. Rev. Mr. Estes will preach.

November 14 Rev. W. C. Scott of Canton will preach for Mr. Hale's congregation.

Dr. R. K. Maiden of Kansas City, editor of the Word and Way, will preach here November 21.

ON EAST AND WEST FRONTS.

Teutonic Success in Galicia and Repulses in Champagne.

Special to The Democrat-Forum.

Paris, Nov. 5.—The Germans renewed their attacks on La Courtine in Champagne yesterday, but their two assaults were repulsed, although they used liquid fire and gas hand grenades.

Drove Russians Back.

Berlin, Nov. 5.—The Austrians have pierced the Russian front on the Strypa river in Galicia, and after a three days battle the Slav army has been driven back across the river. The fighting is heaviest around Tarnopol.

DEATH OF WILLIAM GLAZE.

Had Been in Ill Health for Several Weeks and His Death Was Expected.

William Glaze died at about 2:30 o'clock this afternoon at his home, on North Mulberry street. He had been in ill health for several months. His wife died several weeks ago.

No arrangements have been made for the funeral services.

ORGANIZATION FURTHERED

Young People's Federation Still in the Talking Stage But Constitution Will Be Adopted Next Week.

Plans for the permanent organization of a new federation of young people's societies were discussed at length in a meeting of two representatives from each church last night at the library. The individual societies had already voted to enter such a federation.

The work of the delegates last night was to arrange for a form of organization and to outline work for the united efforts of all the Christian young people of Maryville. The presidents of the societies were appointed on a committee to draw up a constitution.

Virgil Hartness, president of the Epworth League of the First Methodist church, is chairman of the committee. The other members are Miss Bertha Anderson, Christian; Lee Meek, B. Y. P. U.; Philip Colbert, Presbyterian; I. B. Williams, Buchanan Street Methodist.

The other representatives present were Miss Edna O'Neal, First Methodist; Miss Hazel Wallace, proxy for Miss Julia Denny, who is in Kansas City at the teachers' meeting, Baptist; Vernon Nash, Buchanan Street; Mrs. E. B. Burnett, Christian, and Joseph Farmer, Presbyterian.

The group will meet again next Thursday night to receive the report of the constitution and to perfect the organization for ratification by the societies.

FLYNT HAS RESIGNED

COUNCIL WILL DISCUSS CITY ENGINEER'S OFFICE.

MAY MAKE TWO PLACES

Raising of Cigarette Limit From 18 to He Will Oppose Strenuously Invoyant Measures Up.

The resignation of F. L. Flynt as city engineer and street commissioner will be presented this evening at the meeting of the city council, Mr. Flynt having handed his resignation to Mayor U. S. Wright before leaving for Kansas City, where he was called by the death of his father.

It is probable that the city council will repeal the ordinance combining the two offices of city engineer and street commissioner, as it has been for the past year and then pass one making the city engineer and street commissioner separate offices.

With the resignation of Mr. Flynt it was said this afternoon that the two appointments would be made at the council meeting this evening. M. I. Woods, formerly street commissioner, is being mentioned for street commissioner. No one is being mentioned for city engineer.

Mr. Flynt has not decided what he will do. He was asked to resign by members of the council who thought that the combination of the two offices into one was not working satisfactorily.

A measure raising the age limit under which a dealer cannot sell cigarettes to a boy from 18 to 21 years old will probably be passed. The curfew ordinance which City Attorney Crawford was asked to draw up at the last council meeting will be discussed and in all probability passed. An anti-clairvoyant ordinance is also among the list of things to be discussed.

SPECIAL JUDGE FOR WORTH.

Ellison Still Unable to Hold Court, Although Improving Rapidly.

Although Judge W. C. Ellison is improving in health rapidly, it was not thought best by the physicians that he should sit upon the bench for some time. The Worth circuit court will convene next week and a special judge, Leo M. Phipps, has been elected by the Grant City bar.

Judge Ellison was in Kansas City yesterday receiving medical examination.

Week-End Guests.

Misses Fern Watson and Leona Dietz of Rock Port motored to Maryville today and will be the week-end guests of Mr. and Mrs. Harold VanSteenbergh.

Countess Veschi's
Jewels, two acts
Ham's Harrowing Duel
comedy
STAR THEATER TONIGHT.
5 and 10 Cents.

BRYAN ATTACKS WILSON'S POLICY

DEMOCRATIC LEADER SAYS PLAN CHALLENGES CHRISTIANITY.

HE'LL FIGHT IT AS FALSE PHILOSOPHY

Former Secretary in Statement Says He Will Oppore Strenuously Increased Expenditures.

Special to The Democrat-Forum.

Washington, Nov. 5.—The open Bryan-Wilson split has arrived. William Jennings Bryan issued a long statement here today attacking the position of the president with reference to army and navy expenditures and taking issue with every item of the chief executive's preparedness program.

The former secretary of state challenges the entire policy of the administration as outlined in the speech of President Wilson to the Manhattan club in New York last night at their celebration of their fiftieth anniversary.

Mr. Bryan also denounced the Manhattan club as a place where the mammon worshipping portion of Democracy meets to exchange compliments. The president and his friends had expected the statement, as Mr. Bryan had announced previously that he would strenuously oppose any proposal to increase the expenditures for the army and navy.

The throwing down of the open issue between the two leaders of the Democratic party means that a great fight will be waged in the next congress, and that preparedness will be an important issue, if not the one issue, in the next election.

"The whole program of the president is a complete reversal of his international policy," said Mr. Bryan. "But it is more than that. It is a menace to the peace and safety of the United States and a challenge to the real spirit of Christianity. The President's reasons for the new policy constitute a false philosophy and must inevitably lead the United States into difficulties."

TO WIDEN GRAHAM ROAD

HUGHES MEN WANT TO MAKE GRADE THROUGH VALLEY.

County Court Will Probably Make the Order—Judges Will Discuss Bond Election Again.

John A. Gex, trustee of Hughes township, John A. Lowrance and C. R. Leeper, members of the township board met yesterday afternoon with the county court to discuss the change in the Graham-Maitland road just west of Graham.

A petition headed by E. W. Geyer and C. E. Wakeley asks the court to extend the north line of the road 66 feet, making the road 100 feet wide. The reason for the change is that a grade may be thrown up for the road bed through the valley of the Nodaway river.

The land would be taken from H. L. Leeper's farm. No order was made yesterday by the court but it is understood that the members of the court are favorable and such action will probably be taken November 13 in a special meeting.

The court went to St. Joseph today to visit the State Hospital No. 2, and to look after the condition of the Nodaway insane patients in the asylum there. They will return and hold another session tomorrow.

The subject of the meeting tomorrow will largely be a consideration of the calling of an election for the $100,000 bond issue. A large number of bills have already been allowed and a few more to be passed upon.

The court is unwilling to call an election at this time because of their belief that it would not pass and the county would be to a $600 or $700 expense without any benefit. This belief is upheld by representative men from all over the county. Unless the petition from Nodaway township is withdrawn, it will be mandatory on the court to call the election.

LETTER SHOWER FOR FINCH.

Friends Here, About Fifty Strong, Mailed Good Wishes to Former Pastor.

Rev. R. L. Finch, former pastor of the Christian church here, will get a surprise when the mail man arrives at his home in Milwaukee tomorrow. About fifty friends arranged a "letter shower" for him and the messages were mailed last night.

The letters were intended to be words of appreciation and encouragement and best wishes, as he enters upon his first Lord's day service in the Park and Prospect church in that city.

VILLA HAS CHANGED

WILL NOW ATTEMPT CAPTURE OF MEXICO CITY.

CARRANZA ON OFFENSIVE

Rebels Have Withdrawn From Agua Prieta and Short Campaign Against Them is Expected.

Special to The Democrat-Forum.

Washington, Nov. 5.—That Villa has definitely abandoned his attack on Agua Prieta is the report of General Funston to the war department from Douglas, Ariz.

The Villistas have been moved to Naco and it is believed that an attack on Mexico City is being planned. Four thousand are already there and the others will reach that city soon.

From Naco they are expected to move to Hermosillo; then to Guaymas or Mazatlan, from which positions the attack on Mexico City would be directed. The forces of Villa will remain at Naco just long enough to replenish their supplies.

Obrejon is expected tomorrow at Agua Prieta with Carranza re-enforcements to take the offensive against Villa. It is expected that he will be sent away on a short campaign.

FROM NEW WELLS SOON

PUMPING OF CITY WATER FROM EAST SAND POINTS.

New System Will Be Put in Force Monday Probably—Big Improvement in Every Way.

The Maryville water supply will be taken from the new sand-point wells on the east side of the 102 river beginning Monday or Tuesday, according to the members of the board of public works which held its regular meeting at the city hall last night.

The theory of the water department men and the members of the board is that all of the water needed can be drawn from the new wells and that the pumps can draw their capacity of 2,000,000 gallons a day from them if it is necessary.

Two-thirds of the water now used comes from the eight sand points on the west side of the river and a third from the river. There are twelve on the east side and the stratum of water sand is 12 feet thick as compared with 7 or 8 feet on the west side. So all the water will be drawn from the east points unless the practice of the wells fails to bear out their theoretical promise.

A new 10-inch main has been laid acorss the river and the water will be pumped directly into the water tower without any filtration or aeration as is necessary under the old system. The new points are in pure sand while the old stratum was "gummy" and full of iron.

The water tower is being painted this week by Cornett brothers. The steel work is getting one coat of black; the brick two coats of red; and the stone foundation two coats of gray. The job is almost finished.

George Patterson of Skidmore spent Thursday in Maryville on business.

GREEK KING MAY ADJOURN CHAMBER

ZAIMIS CABINET WOULD BE KEPT IN POWER THUS.

TAKES TWO MONTHS FOR NEW ELECTION

Leaders of All Parties Called Into Conference With King—Teutons Are Successful All Over Balkans.

Special to The Democrat-Forum.

Paris, Nov. 5.—An Athens dispatch says that the king of Greece has decided to keep the Zaimis cabinet in power by exercising his royal prerogative of dissolving the chamber of deputies.

It will require two months to hold a general election, and the old cabinet would hold office during that time. The chamber yesterday refused to approve the Zaimis government.

King Calls Leaders' Conference.

Athens, Nov. 5.—King Constantine has called the leaders of all parties and factions into a prolonged conference with him today to discuss the situation which has arisen because of the resignation of former Premier Zaimis and his cabinet.

Newspaper reports are that the king has outlined a program for the nation upon which all parties will be able to unite. M. Venizelos, former prime minister, whom M. Zaimis succeeded, was cheered loudly by the people as he passed through the streets on his way to the meeting.

Venizelos is strongly pro-allies. The Greek nation desires to remain neutral if their neutrality can be maintained.

All Reports Favor Teutons.

London, Nov. 5.—Bulgaria is pouring re-enforcements into Servia north of Uskub and it is believed that the complete annihilation of the Servian army is planned.

Nish, capital of Servia, has been captured by the Bulgarians, and almost every report from the Balkans is favorable to the Teutons. The German army has been successful in all sections.

British Troops in Servia.

Saloniki, Nov. 5.—It has been announced here that the British troops which were landed here have joined the French forces in the Strumnitza region.

Berlin Reports Continued Success.

Berlin, Nov. 5.—No confirmation has been received that Nish has been captured by the Bulgarians. The Bulgarians have decisively whipped the French in the northeast part of Servia, taking many prisoners.

The Teutonic advance into Servia continues, according to an official announcement from the war office.

VESUVIUS IS RUMBLING.

No Immediate Danger But Villages Have Been Warned to Be Ready.

Special to The Democrat-Forum.

Naples, Italy, Nov. 5.—The small eruptions of Vesuvius which have been going on for several weeks are increasing rapidly. The authorities have notified the villagers in the vicinity that there is no immediate danger.

They are warned, however, to be prepared to move quickly at any time.

Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

Latest version: The melancholy days are here, the shortest of the year.

It has to be said sooner or later by every publication, so let's begin: You have only forty-one more shopping days till Christmas.

Politicians who can prove that so many things are going to happen because of an election ought to study the football scores and see with what remarkable frequency the "dope" goes wrong.

In the report of the attorneys selected to investigate the differences between the powers of fourth class and third class cities is the suggestion that a change might result in the revision of the city's laws. The need of an up-to-date revision of the city ordinances is apparent to all who have business with the city hall. There has been no revision for many years, and the ordinances have not been printed for many years because the city didn't want to spend the money to have them printed. As a result ordinances have been passed from year to year and written into books, and in order to determine what the city law is it is generally necessary to run through the whole list, which is the work of days of tedious research. As a result we doubt if anybody is fully conversant with the city laws, or ever will be, until they are revised, properly classified and printed.

A PRIVILEGE AND ITS COST.

A little more than a year ago an Austrian archduke was killed by a Serbian. The Serbian was an Austrian subject, and Austria had it in her power to punish him in any way desired. He was seized and, according to reports, is still in prison. Punishment of the individual criminal was not deemed sufficient, and the chastisement of the nation that gave him birth was undertaken and this, theoretically at least, was the cause of the greatest war known to history. Noblemen in the ranks have been killed since by the millions and the soil of all Europe is drenched in the blood of its best men. Was the archduke worth the price? Are all the archdukes and princes in the Old World worth the price? Will they ever in all the years to come do a tenth as much to advance civilization as this war has done to set it back? Europe will at length be called upon to decide whether it pays to suffer the horrors to which it has been subjected for the privilege of being ruled by kings and monarchs, dukes, barons and other titled nobility.

Preparedness

Is the question of today. I am prepared to give my customers the best in Painting and Paper hanging. M. L. Grable,
Han. 3133 520 N. Buchanan

Why Not Now?

It takes the merchant but a moment to wrap up your purchase. It takes much work and care to produce real quality photographs.

You want pictures for the holidays. We are ready and anxious to serve you.

BREAKS A COLD IN FEW HOURS—TRY IT!

First Dose of Pape's Cold Compound Relieves All the Grippe Misery—Contains no Quinine.

Don't stay stuffed-up!

Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

Letter to Mr. James T. Cook, Maryville, Mo.

Dear Sir: The usual way to buy paint is to take the lowest price by the gallon. Mistake; the buyer loses by it; how much? Depends on the paint; it is so much a gallon, or so much a year. How much a gallon or year, do you think? As much, perhaps, as the total price of the paint. It may take twice the number of gallons.

N. Avery, Delhi, N. Y., owns two houses, both exactly alike. He painted one with Devoe and one with another paint. Devoe 6 gallons; the other 12.

Go by the name: Devoe. There's nothing cheaper. Go by the price; there's nothing dearer, except not painting at all. Poor paint is better than none.

What does it cost not to paint at all? Can't figure it out exactly; say a tenth of the building a year, besides looks.

What is poor paint worth, then? Don't know and don't care; you don't want it. Gy by the name.

Yours truly,
F. W. DEVOE & CO.,
New York, Chicago and Kansas City.

P. S.—Koch's Pharmacy sells our paint.

THROUGH PICKING APPLES.

Ford & Klaas of Parnell Received Over $14,000 for Their Apples in Their 80-Acre Orchard.

The following is from this week's Parnell Sentinel about the orchard near Parnell, owned by J. D. Ford of this city and Mr. Klaas of Parnell:

Ford & Klaas finished picking and barreling apples in their 80-acre orchard the latter part of last week. Their principal varieties were Jonathan, Ben Davis, Gano and Missouri Pippin.

They received for their Jonathans $3.25 per barrel and for the other varieties $2.25 per barrel. In all, they had 5,410 barrels. Of this number 2,572 barrels were Jonathans, 1,804 Ben Davis, 872 Missouri Pippins and 222 Ganos. If we have figured it right they received a total of $8,359 for Jonathans and $6,385.50 for the other varieties, making a total of $14,744.50. This does not include the culls they sold at the orchard, which amounted to several hundred dollars. They cleared possibly between $9,000 and $10,000.

SOUTH METHODIST CAMPAIGN.

"One-to-Win-One" Is the Slogan of a New Church Movement.

All Southern Methodists in Missouri united a few days ago at Centenary church, St. Louis, in pledging a brush-beating campaign for 20,000 more church members, and 40,000 new Sunday school scholars.

Every Methodist is pledged to induce another to join the church. The campaign is called "one-to-win-one." The whole day was spent in perfecting the plan, which was adopted unanimously by the three conferences of Missouri.

"Seventy per cent of the trade today is made possible by personal solicitors," said Rev. Dr. C. W. Tadlock, pastor of Centenary church. "So it is in the church. There have been three notable church periods—the period of the martyrs, the period of the monks and the period of the Methodists. The significance of each one is lay activity."

Burial in Lexington.

The funeral services for Robert B. Flynt, who died in Kansas City Wednesday morning, were held today at Lexington, Mo., and the services were conducted under the auspices of the Masonic order. Mr. Flynt was the father of F. L. Flynt, city engineer, and he attended the services.

Mrs. Sarah Kelly of this city left for Los Angeles, Cal., this morning for an extended visit with her daughter.

DON'T WANT WAR BONDS

Local Banks Say Money Is Needed in West for Crops and Enterprises of This Region.

Circulars have been received by the local banks from J. P. Morgan & Co., of New York, in regard to the Anglo-French half billion war loan which is being handled by that company. The local banks, however, are not going to carry the bonds, and, in fact, there are but few places in the middle west where the bonds will be distributed.

The local bankers say that Missouri and the middle west needs what money they have to supply needs here. A list of the places carrying bonds is contained in the circular.

In Illinois there is but one bank that has the bonds, although several trust companies are agents, and in Missouri there is but two trust companies and no banks handling them. Michigan has two banks circulating the bonds and Wisconsin a trust company. Iowa has none.

Joseph Jackson of the First National bank says that the west can use all its money in road bonds and in moving crops and doesn't want war bonds.

BLUE GRASS THRESHER.

Iowa Seed Man Says Burlington Junction is Good Location for Blue Grass Seed Machine.

Webb McConnell, proprietor of the Green Valley seed house at Harlan, Ia., was in Burlington Junction Tuesday afternoon looking over the field with a view of locating his blue grass thresher and recleaner in Burlington Junction or the immediate vicinity, says the Burlington Junction Post.

In conversation with a representative of the Post, Mr. McConnell said that this was the center of a great blue grass district, the reputation of which had traveled far, and he has practically decided on locating one of his two machines here in a few weeks. C. D. Caldwell has about 3,000 bushels of seed and there are other small quantities in this locality.

A blue grass thresher and recleaner is something the general public is not familiar with. There are only nine of these machines in the whole country, and no one except the owners know how they are built. There is no patent on them, and the secret of making the machine is guarded as carefully as possible. All the moving machinery in sight on the thresher is a pulley. So the machines are seldom moved, on account of the trouble and expense, and the fact that the cat might get out of the box.

Mr. McConnell has two of the machines. For several months the A. A. Berry Seed company of Clarinda had urged him to bring one of the machines there and he finally agreed to move it, providing a certain amount of threshing would be furnished. He has just finished threshing and cleaning the Berry seed, 9,000 bushels in all.

As will be seen by the following figures, the machine will prove profitable to every man that has a bushel of blue grass seed. Mr. McConnell charges 14 cents a bushel for threshing and recleaning the seed. When the rough seed is selling at 65 cents, the recleaned seed is worth about $1.25. Allowing for the price of threshing and the shrink, the farmer will be ahead on an average of 25 cents a bushel on the price of his blue grass seed.

Mr. McConnell also sells and rents blue grass strippers, buys blue grass seed—in fact, is a thorough blue grass seed man, and if he locates here he will boost a business along that has been largely neglected in this locality.

The Burlington Junction Post says that W. H. Cluster threshed for himself and for Jeff Graves the first of this week. This finishes the threshing for this year east of the Junction.

SUNDAY GREAT S. S. DAY

PROGRAM INDEPENDENCE TOWNSHIP AT GAYNOR CITY.

Polk and Union Will Also Organize Same Afternoon—Changes in Pickering Speakers.

Sunday is to be a big day in the history of Nodaway county Sunday schools. Three important township meetings will be held that afternoon. Polk township will meet in the Christian church here with L. M. Strader in charge.

H. C. Bower, president of the county organization, will do a quick change act by speaking at the beginning of the meeting in Pickering and then motoring to Maryville in time to organize Polk township at the close of the meetings.

Miss Eva Davis, secretary of the association, will have charge of the program of the Independence township schools, to be held at Gaynor City at 2:30 Sunday afternoon. She will be assisted by Miss Elizabeth Evans. Two changes have been made in the program for Union township at Pickering, which was printed last Saturday. W. M. Hall and James N. Jones will exchange subjects, and an addition has been made. Mrs. John Morehouse, superintendent of the home department of the county association, will speak on "The Home Department and Its Relation to the Sunday School."

Independence Township Program.

The program to be given at Gaynor City is:

2:30—Devotional service, led by Rev. W. E. Tinney.

2:45—"The Rural Church—a Community Center," by Mr. Hope of the Gaynor City Baptist church.

3:05—"The Importance of Trained Teachers," by a member of the Parnell M. E. church.

3:25—"The Adult Class—How to Interest Men," by T. E. Young of the Gaynor City Christian church.

3:45—"The Superintendent and His Helpers," by Paul Caudle of the Gaynor City M. E. church.

4:05—"How to Keep the Teen-Age Boys and Girls in Sunday School," by a member of the Maple Grove Sunday school.

4:25—Special music.

4:30—"Co-Operation," by Miss Elizabeth Evans, superintendent of the elementary department of the county association.

4:50—Organization of Independence township by county officers.

4:55—"The Organization of Sunday School Workers in Nodaway County," by Miss Eva M. Davis, secretary of the county, with illustrations from a map prepared by her.

5:10—Round table discussion, led by James LaFavor, Parnell M. E. church.

Evening Program.

7:30—Praise service and devotional exercises.

8:00—Sermon by Rev. W. E. Tinney.

PREDICTS NEW HOLY WAR

Turk Says Kaiser Will Ask Sultan to Call Islam If He Needs Them.

London, Nov. 5.—"Britain and her Allies will never take Constantinople Their policy in the Balkans has been stupid and suicidal. Before they beat the Turkish Empire they will be faced with over forty millions of Moslems, for a world wide Jehad, or holy war, is now in course of preparation."

This was the statement today of Mr. Kahlde, a prominent Turkish merchant who has recently left Constantinople. He ranks high among his compatriots as a Mohammedan who has made a pilgrimage to Mecca. He declares that the peril of a great holy war is imminent.

"The preparations for a Jehad," said Mr. Kahlda, "have been going on since 1911 when Italy attacked Turkey. So far as Turkey is concerned in the present war she has little money to continue, but she is receiving support, and the nation itself is rich, and the people are intensely patriotic.

"The army is a perfect fighting machine as the British and French now in Gallipoli have admitted. The rulers of the Ottoman Empire recognize that this is likely to be a fight to the death, and in the last resort, should there be a sign that Turkey is likely to be beaten there still remains the last resort. That effort would be the greatest of all, and would effectively paralyze the enemies of Islam. All arrangements have been made to put this into effect, and call a holy war."

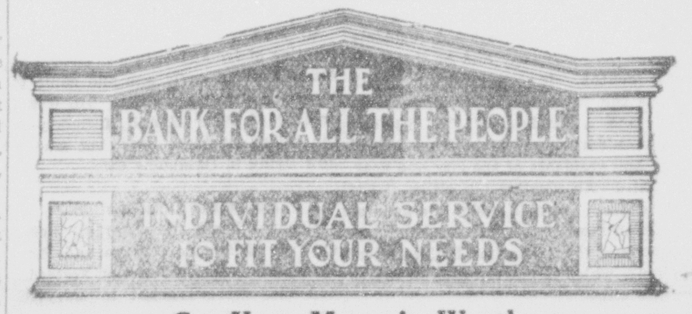
BUSY ON THE ROADS.

Nodaway Township Has Big Force of Men at Work On Grading the Roads.

According to the Burlington Junction Post, Nodaway township is making up for lost time on the roads, five forces of men now being employed at different places in the township, working and grading the roads. The big old grader that requires eight horses to pull it was hauled out on the road with an extra force to use it.

The township board of that township is considering buying a power grader. C. D. Caldwell has offered the board the use of his big tractor, the only expense to the board being the engineer's wages and the fuel.

Mt. Ayr church will give an oyster and chicken pie supper Saturday, November 6. 4-5



Get Your Money's Worth

PREVENTABLE BLINDNESS

Committee Will Try to Arouse National Sentiment on Great Problem of All People.

New York, Nov. 5.—To make the fight against preventable blindness an effective national movement, the National Committee for Prevention of Blindness is holding its first annual meeting at the Academy of Medicine this afternoon.

Although organized only nine months ago the Committee has already coordinated the activities of societies in thirteen states and expects to push the work in every state in the union.

This Committee's organization came about through the need of a national bureau of information and correlation. All over the country local societies have sprung up in the past six years, engaging the attention of both physicians and humanitarians in the effort to reduce the number of cases of needless blindness in children. The Committee says that half of all blindness is unnecessary and that only ignorance and carelessness are responsible for this burden upon the individual, society, and the state. The Committee proposes as its object the study of the causes of preventable blindness and impaired vision and the means and methods of prevention, publication of findings, lectures and popular education.

The committee numbers among its sponsors Joseph H. Choate, Dr. Abraham Jacobi, Miss Winifred Holt, Miss Jane Addams, Miss Helen Keller, Mrs. Ella Flagg Young, Dr. David Starr Jordan, Theodore Roosevelt, and Senator Thomas P. Gore. Its board of directors include Bryan Lathrop of Chicago, James P. Munroe of Boston, Miss Julia Lathrop of Washington, Dr. Hiram Woods of Baltimore, Dr. F. Park Lewis of Buffalo, and Dr. J. A. Shawan of Columbus.

Land Sold for $136 an Acre.

CONVERT CHINESE TO AID SUFFRAGE

Woman Uses Native Flag In New York Campaign.

BANNER WARMLY GREETED.

Goes From House to House Telling Alien Inhabitants of Equality For Men and Women—One Chinese Voter Declares He Would Like Wife to Be an American Citizen.

New York.—Miss Lavinia Dock of the Henry street nurses' settlement has undertaken to convert Chinatown to suffrage with Chinese flags. The psychology of the flag is an interesting study. It is hard at times to pierce the apathy, the stolidity of the alien inhabitants of a great city like New York and to arouse among them an interest in a cause not primarily and originally their own. But there is one universal, never failing method—and that is to display the flags of those foreign lands whence they came. So Miss Dock unfurls a beautiful white silk Chinese banner bearing the votes for women message on both sides. A kindly missionary man and a cultured Chinese doctor helped make the banner, which is attached to its standard by gay ribbons of old rose, light blue

Photo by American Press Association.

MISS LAVINIA DOCK.

and bright yellow, these with black and white being the colors of the new Chinese flag.

Flag in hand, the suffragists go out into the highways and byways with their message of equal political rights and responsibilities for men and women. "First class," said a smiling faced, prosperous looking Chinaman in well cut American clothes as he greeted the suffrage banner. "First class, I believe in that," he repeated, and other Chinamen smilingly nodded assent.

As the banner moves on pleased nods and bows greet its progress. Into a dark doorway and up the stairs marches Miss Dock, holding her suffrage banner before her. "Our nurses come here often to look after the children," she explains.

Through a crowded kitchen and into a room in the front of the house she marched. "May we come in?" asked Miss Dock. A guttural sound signified assent. A young woman with a much embroidered and solemn faced baby looking like an infant mandarin sat at one end of a table between the windows. At the other window sat an older woman sewing. Both women wore native costumes. Neither could speak English. The younger woman went out of the room and soon returned, bringing her sister, a girl of fifteen, who goes to high school. She listened to Miss Dock a moment and then a smile broke out all over her face. Yes, indeed, she knew about the suffrage campaign, and she believed in votes for women. Then she turned and spoke rapidly to her mother and sister-in-law. Immediately their faces changed, the glumness vanished and they beamed upon the callers. They, too, believed in votes for women; yes, indeed, and so did their husbands.

Out on the street again and up into another house marched the Chinese banner with its message of equality for men and women. Here was a Chinese woman of high degree. Heiress to all the traditions of old China, nevertheless she has her face set toward the promise of the years to come, and she believes in equal suffrage. To be sure, as Miss Dock explains, there are not so very many registered voters in Chinatown, but even though they be but few they are going to receive the message. They are interested in it too. One full blooded Chinese voter born in this country expressed the new ideal for women as he sees it: "I would like my wife to be a citizen."

Bee Sting Got In Her Tonsil.

Kingman, Ind.—Mrs. Edward Reath was the victim of an unusual accident when she was stung by a bee which she swallowed when eating grapes. The insect in its eagerness to suck out the pulp of the grapes had crawled inside the skin and was not discovered by Mrs. Reath until it objected to being made a Jonah and inserted its stinger in one of the tonsils in her throat. The tonsil swelled badly, and the services of a physician were required to remove the stinger.

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance an incomparable gloss and softness; but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. 10-8-15.

CORN SHOW PRIZES $886.20.

State to Pay 30 Per Cent of Farm and Domestic Science Awards.

The Nodaway County Domestic Science association this year spent in premiums and souvenirs $886.20, according to a report which is just being finished up. This amount includes $195 which is yet to be paid out in the acreage yield contests; which cannot be decided before the 20th of November. The souvenirs of the show this year, which were given to the boys and girls exhibiting who did not win prizes, were knives and silver thimbles.

The county is entitled to 30 per cent of the amount from the state and a bid is being made for the funds which the county should draw. This bid accompanies a report with an itemized statement of each prize, the amount, and to whom and for what paid.

HAYS EXPECTS LIGHT FEEDING.

Skidmore Man Says Corn is Plentiful But Inferior Quality.

John G. Hays, a prominent farmer and stockman of Skidmore, Mo., was a visitor at the yards today, bringing in a mixed load of cattle and hogs. Mr. Hays says the volume of winter feeding in his section will be light. Corn is fairly plentiful, but of inferior quality, he reports.

The following patrons had in consignments of stock from Nodaway county: R. F. Wells, Eugene Humphrey, C. H. Roach, W. B. Herring, C. M. Bloom, William Hartman, Ward Walker, Joe Halker, Edgar Rhodes, A. E. Jones and John G. Hays.—Stock Yards Journal.

MRS. A. M. HOPPER VERY LOW.

Lingering Illness From Heart Disease May End Soon.

Mrs. A. M. Hopper is lying at the point of death at her home. She has had a lingering illness of eight weeks from organic heart trouble.

The end has been expected any time since her son and wife, Mr. and Mrs. C. E. Hopper of Garden City, Kan., arrived two weeks ago. They moved to Maryville about three years ago for the benefit of Mrs. Hopper's health.

Named On Committees.

Prof. G. H. Colbert and Prof. S. E. Davis of the State Normal school, who are attending the State Teachers' association in Kansas City this week, were selected as members of important committees of that association. Mr. Colbert was named on the nominations committee and Mr. Davis on selecting a place for next year's meeting.

New Garage at Junction.

George McKnight is building a new garage at Burlington Junction on his lots that he purchased from J. H. Sewell of this city and Davis & Caldwell. The dimensions of the building will be 80 feet wide by 90 feet deep. It will be completed by December 1.

Visiting Her Daughters.

Mrs. J. K. Sawyers, two sons and daughter, and Mrs. Winfield Scott left this afternoon for a visit with Mrs. Sawyers' sisters, Mrs. H. A. Sawyers of Savannah and Mrs. Elmer McJimsey of St. Joseph.

C. S. Dougherty brought the largest load of wheat to town Tuesday that has been marketed at Elmo this year. There was 50 bushels and 20 pounds in the load, it tested 55, and brought 80 cents, which is good for this year.—Elmo Register.

There will be a boxing match at Conception Junction on Saturday evening at 8:30 o'clock between Jack Peters of New York City and Jackie Moore of Columbus, O., for the colored lightweight championship of America.

SOCIETY and CLUBLAND

By KATE SCHENCK

PHONES—OFFICE 42. HOME 683

Yuletide Sale.

The Ladies' Aid society of the First Christian church will hold their second Yuletide sale at the church December 1 and 2. Fancy and useful articles and a special line of rugs will be on sale.

W. R. C. to Meet.

The regular meeting of the W. R. C. will be held at 2:30 o'clock Saturday afternoon. All members are requested to be present at the stated time, as the inspector, Mrs. Tory of St. Joseph, will leave on the afternoon train. Refreshments will be served.

Meeting Postponed.

The meeting of the D. A. R. chapter has been postponed from tomorrow afternoon to Saturday, November 13, when Mrs. Joseph Jackson, Jr., Mrs. J. A. Ford and Misses Julia and Jeanette Tate will be hostesses at the home of Mrs. Jackson.

Guests at House Party.

Miss Ruth Montgomery left Friday morning for Ames, Ia., where she will be a guest at a Phi Gamma Delta house party. Miss Helen Dunn of Bolckow is also a guest at the party. Miss Montgomery will go to Aurora, Ill., for a visit with Miss Harriett Sheets before returning home.

For Newly-Weds.

A dinner dance complimentary to Mr. and Mrs. Eldon W. Irvin, who were recently married, was given last evening at the Elks club by the members of the club, their wives and lady friends. There were sixty-five diners, and after the meal had been served Augustus Romasser welcomed the newlyweds to the ranks of married people in a very able talk. Dancing followed until a late hour.

A Dinner Party.

Mr. and Mrs. George Ellsworth of Ravenwood entertained at 12 o'clock dinner Thursday. Plates were laid for Mr. and Mrs. A. J. Anderson, Mrs. G. R. Epperson, Miss Martha Ellsworth, who motored to Ravenwood in the Anderson car, Mrs. Mary Andrews of Sheridan, sister of Mrs. Ellsworth, Mrs. Leslie Rhodes, Merle Ellsworth, host and hostess. Mrs. Anderson, Mrs. Andrews and Mrs. Ellsworth were schoolmates together in Illinois.

Miller Dinner Party.

Mr. and Mrs. Elwood Miller entertained a number of guests at dinner Sunday at their country home, north of Graham. Those present were Mrs. Minnie Gaukel of Skidmore; Mrs. Joseph Cornell and baby son of Maryville, Mr. and Mrs. John Gaukel, Mrs. Amy Bailey, Minnie, Lorena, Emma and Clarence Gaukel, Mildred, Clara Opal, Floyd and Orville Bailey. Several neighbors joined the company in the afternoon.

Hallowe'en Party.

A very pleasant Hallowe'en party was given at the home of Mr. and Mrs. Will Fox by Miss Fern Blakesley, when she entertained the Earnest Workers class of the M. E. Sunday school of Wilcox. The rooms were beautifully decorated in autumn leaves and foliage. On arrival the guests were ushered upstairs to black and red tents, where witches told fortunes. Everyone was masked and the occasion was very much enjoyed by all. Those present were Mr. and Mrs. Elihu Carter and sons, Mr. and Mrs. R. P. Ferguson and daughter, Alma; Mr. and Mrs. Will Fox, Misses Florence Moore, Ethel Stoner of Sheridan, Dora Smith-Hazel McComb, May McGinnis, Nettie, Violet and Josephine Jensen, Gladys Owens, Mamie Cummins, Fern Blakesley, May Mitchell, Messrs. Tom Smith, Remus Jensen, Burl and Cleo Mitchell, Dave D. Zeornes, Robert Noakes, Gus Shell, Frank McComb, Harold Thompson, Don Hall, Emmett and Will Cummins, James Tobin, Edwin Sapp, Ben Gossard, Floyd Logan and Hubert Smith.

Entertains Ladies' Aid.

The Ladies' Aid society of Palestine church met Wednesday in an all-day session at the home of Mrs. John Neal. The day was pleasantly spent in sewing and visiting. At the noon hour a delicious dinner was served which was greatly enjoyed by all, especially Will Gex, who appeared just in time for dinner, dressed in a bright red kimono and blue sunbonnet with a clothes pin bag, containing a roll of binding twine and sheep shears, swinging on his arm. The members present were Mrs. Robert Gex, Mrs. Peter Brown, Mrs. Henry Anderson, Mrs. Oliver McNeal, Mrs. Will Gex, Mrs. Otis McNeal, Mrs. Gaylord Dilts, Mrs. Wilson Ellsworth, Mrs. Noble Norris, Mrs. Frank Lyle, Mrs. Dick McDowell, Mrs. Clarence Charles, Mrs. Will Mountjoy, Mrs. Theo Snowberger, Miss Lizzie Russnogle and Miss Minnie Farmer. The guests were Mrs. Jacob Shambarger, Mrs. Alex Lyle, Mrs. L. Haist, Mrs. Thornton Acklin, Mrs. Sumner Shockley, Mrs. Charles Wood, Mrs. Gould Hayzlett and Mrs. Virginia Mitchell.

Smith Funeral Held.

The funeral of Mabel Ida Smith, daughter of C. C. Smith of 508 Prather avenue, who died in St. Joseph Wednesday afternoon, was held at the Smith residence at 2:30 o'clock this afternoon.

The funeral was conducted by Rev. Alex Holt and interment was in Miriam cemetery. A quartet composed of Mrs. F. P. Robinson, Mrs. John D. Richey, H. J. Becker and W. E. Goforth sang at the services.

Mrs. J. W. Cornell has returned from a week's visit with relatives at Skidmore and Graham.

How to Treat Croup Externally

Rub Vick's "Vap-O-Rub" Salve well over the throat and chest for a few minutes—then cover with a warm flannel cloth. Leave the covering loose around the neck so that the soothing medicated vapors arising may loosen the choking phlegm and ease the difficult breathing. One application at bedtime insures against a night attack. 25c, 50c, or $1.00. At druggists.

Victrolas—Grafonolas

Do you know that last year the trade in these machines was so great that very few retail houses could supply their customers? Many machines sold at Christmas could not be delivered until weeks afterwards. This condition is already beginning to show this year and we would advise those who expect to purchase machines for Christmas to make selections now and have the machine you want reserved. We have placed large orders in all the different sizes and will endeavor to keep our stock complete, but the demand for these instruments at this time of the year makes it advisable to make early selections. We will be glad to demonstrate machines and records at any time, whether you expect to purchase or not. Victrolas and Grafonolas from $15.00 to $250.00 in stock.

A "MEDICAL EXAM" DAY

Tuberculosis Society Sets December 8 As Time for Nation to Call in the Doctors.

In a plea for every man and woman in the United States of adult age to join in a movement for annual or other periodic medical examination of themselves, which will be launched December 8, The National Association for the study and prevention of tuberculosis presents figures in a bulletin issued today which show that practically 100 per cent of the supposedly well people of the United States over 30 years of age have some physical defect or impairment. About 70 per cent of these impairments were of a more or less serious nature. There were besides about 30 per cent of defects of a minor character.

The figures which the National Association presents are based upon the careful studies recently made by the Life Extension Institute among two highly specialized groups of people, the first group consisting of workers in the Ford Motor Company of Detroit, and the second group consisting of employes of commercial houses, banks and trust companies in New York. The records of these examinations show that practically none of those examined, men and women, are normal in the strict sense of the word. Another striking fact in the examination is that only 10 per cent of those who were impaired were aware that there was anything the matter with them. This fact alone, the National Tuberculosis Association points out is sufficient to make every man and woman in the United States give careful consideration to the necessity for at least one physical inventory of his entire body a year.

The largest group of more or less serious impairments discovered were those showing sugar, albumen or casts in the urine. More than 45 per cent of the above-mentioned groups showed defects of this nature. In the same groups about 23 per cent showed abnormal blood pressure, while nearly 27 per cent showed combined disturbances of circulation and kidneys. Organic heart disease, thickened arteries, lung trouble leading to possible tuberculosis, nervous affections, digestive troubles and venereal disease were among the other impairments discovered, practically all of which had escaped the notice of the individuals examined.

During Tuberculosis Week which will be celebrated throughout the United States from December 6 to December 12, a national medical examination day will be observed on December 8. Groups and individuals will be urged to make arrangements for physical examination on that day. A circular describing in detail how the advantages of medical examination day may be obtained and indicating certain physical impairments which every one should look for will be sent on request from the office of The National Association for the Study and Prevention of Tuberculosis, 105 East 22nd Street, New York City.

"CASCARETS" FOR A COLD, BAD BREATH OR SICK HEADACHE.

Best for Liver and Bowels, for Biliousness, Sour Stomach and Constipation.

Get a 10-cent box now.

Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their litle insides need a good, gentle cleansing ,too. 10-8-15

"COUNTY UNIT" IN SCHOOLS.

State Teachers Urge Plan to Equalize Education.

Kansas City, Nov. 4.—Organizing schools by counties and wiping out district lines will be favored by a committee to report to the Missouri State Teachers' association here Thursday, Friday and Saturday. The county unit plan is supported by the leading educators because it offers children equal educational facilities.

Under the present plan of each district taxing itself and supporting its own school separately, the committee says, a child on one side of a road may be taught by a highly paid and efficient teacher, while across the road in another district may live a child taught by an underpaid, inefficient teacher. Often a railroad makes a districts valuation many times that of others. Under the county unit plan all would have equal schooling. The principal objection to the system is that it takes away the self rule of each district. The report is expected to stir up quite an argument in the convention.

"I Don't Feel Good"

That is what a lot of people tell us. Usually their bowels only need cleansing.

Rexall Orderlies

will do the trick and make you feel fine. We know this positively. Take one tonight. Sold only by us, 10 cents.

Otis Harlan, King of American Comedians, Writes of the Personal Side of Charles Hoyt, Playwright

By OTIS HARLAN.

In the spring of 1887, at the Nell House, Columbus, Ohio, I first met the late Charles Hoyt. It was before I ever thought of going on the stage; I had been in Columbus for the wedding of a school friend. Jim Miller, an old circus man, then manager of the old Metropolitan opera house, Columbus, introduced me to Hoyt.

That evening in the historic old hotel I entertained Hoyt and some acquainances with some comic "cut ups" for which I had a peculiar talent. I lived then at Zanesville, Ohio. I was about to leave for home next day when Hoyt called. To make a long story short, he put me in his play "A Hole in the Ground." He was in Columbus rehearsing for the opening.

I remember that Hoyt was taken into the Elks lodge in Columbus the night before we opened. Flora Walsh was Hoyt's leading woman and he married Flora on July 25, 1887. She was seventeen on July 24th and Hoyt was twenty-seven on July 26 and they selected the day between for the wedding day. Charlie Reed, an old minstrel man, Fannie Stevens and I were at the wedding, which occurred at Charleston, N. Y

"A Bunch of Keys," Hoyt's first success was suggested by Willie Edowin, who in later years starred in "Flora-dora." Hoyt never got a cent of royalty for writing the play.

"A Parlor Match" was developed by Hoyt from an old skit called "The Book Agent." This skit belonged to Evans & Hoey. The first real financial success that Hoyt enjoyed was his play "A Rag Baby." He had written a piece called "Cezelia," founded on a mythical patent medicine. It was never produced right and it became the theme for the last play Hoyt ever wrote, "A Dog in a Manger."

In 1884 Hoyt wrote "A Case of Wine," which was played in Texas by Charles Bishop. "A Case of Wine" later proved the foundation for Hoyt's play "A Texas Steer," recently filmed with great success by the Selig Polyscope company.

While we were playing "A Hole in the Ground," opening September 14, 1887, in the Fourteenth Street theater, New York city (my first appearance in New York city as an actor), Hoyt started writing "A Midnight Bell," which was first produced in Frisco by L. R. Stockwell in his stock company. Hoyt saw its possibilities and then produced it in the East.

Charles Hoyt had a way of writing about his players' personality and it was while "A Hole in the Ground" was on the boards that he wrote "A Brass Monkey" and put me in to do the song "Razzle Dazzle." The writer of this song, Wm. Barton, was so pleased that he made me a present of the song "The Wild Man of Borneo," which we did in "A Brass Monkey."

Hoyt always produced his pieces for two weeks in the spring around New England, then remained for a week in Jersey City, then closed for the summer, almost ready to produce the piece without change in the fall. Any alterations in the plot he would make in the summer months.

Hoyt has an unusual method of developing his plays. He would begin by telling his intimate friends about an idea and it was wonderful how he would enlarge it. Every time Hoyt told his idea he had some new comedy interest and he built up his plays by telling it over and over again. He would then sit down and write an entire show in two or three days for he had all the construction in his mind.

I have seen Hoyt sit in our Pullman sleeper, even in the day time, with the window shade drawn down over his head, looking out, but seeing nothing but the funny ideas that were tumbling out of his fertile brain. He was undoubtedly the most prolific and most successful playwright that American has ever known. He wrote all of his manuscripts in long hand, later having them typewritten.

Hoyt was a man difficult to approach. His most intimate friends never called him "Charlie." As a man he was cold and reserved. Frank McKee, his partner, even called him "Mr. Hoyt." He was also most economical with the pay roll. For three years I drew $25 weekly. He liked to split the difference in salaries as for example: One actor demanded $40 weekly and got $35, another asked for $35 and got $32.50. But outside business hours, in the cafe or the dining room, he corralled all checks. In business he was close, in social life unusually liberal.

Flora Walsh, loved by everyone, died in Boston while we were playing "A Texas Steer." Hoyt's second wife, Caroline Miskel Hoyt, died in New York city, while we were playing "A Day and a Night."

Poor Charles Hoyt died at Charleston, N. H., in November, 1900. Governor Rollins of New Hampshire had been petitioned to investigate his case by the people who asserted that Hoyt was not insane, but was being kept in charge for some ulterior purpose. I had called upon Hoyt previously and knew that he was not in his right mind. I have seen him shave himself, in his later years, while wearing a hat and overcoat in sultry weather. He was undoubtedly losing his mind for several years before anyone appreciated the fact. He had a horror of the fleur de lis. Did he spy the device at any time or place he would beat a hasty retreat. He could be very sarcastic at times.

Hoyt had a great fund of stories and his humor was wonderful. Everything seemed to strike his funny side. Even the names of his characters were studies in true humor.

"A Trip to Chinatown" was Hoyt's first failure. It failed to make any money on its preliminary presentation. Hoyt took the show to New York city, engaged the Madison Square Garden, put in a good cast and it went over and was the biggest hit he ever had. Society had never seen that class of stuff in those days.

There is no case on record where Hoyt ever wrote a play for a star. He didn't like to write for people he did not know well. He started "A Black Sheep" for William Hoey and with reluctance. Before the contracts were signed there was a hitch and Hoyt tore up the contract. Then he sent for me. He told McKee in my presence that he would rather write the play around my personality. "A Black Sheep" was a great success.

"A Contented Woman" was written for his wife. It is as up-to-date today as it was years ago, for it deals with suffragettes. You have perhaps noticed that all of the Hoyt's comedies start with "A." It was just another one of his peculiarities.

It is worthy of notice that one of the Hoyt plays "A Black Sheep," in which I achieved one of my biggest hits as an actor, is to be released as a Selig Red Seal Play. Little did I believe when acting in this comedy that I would again appear in the production as a motion picture star.

POUNDS THE SPINE TO REDUCE LARGE HEART

Contraction Usually Follows Quickly, Says Professor.

Philadelphia.—Enlargement of the heart—the "athletic heart"—may be reduced by simply tapping the spine with a hammer, according to Professor Meyer Solis-Cohen of this city. He described the treatment in the New York Medical Journal. Of course it should not be attempted save by a physician.

The tapping should be done, he says, on the "spinous process of the seventh cervical vertebra," which in every day English is the protruding vertebra in the spine at the bottom of the neck, a little above the shoulder line.

To protect the spine from the direct shock of the blow Professor Solis-Cohen has usually used a rubber eraser or a piece of soft rubber or linoleum about six inches long, one and a half inches wide and about a quarter of an inch thick.

Putting this deadener against the spine at the point indicated, he gives a series of sharp and vigorous blows with an ordinary hammer that has a rubber tip or with a jeweler's hammer. In an emergency he lays his fingers on the spine and then beats the fingers with his fist.

This exercise on the spine is usually followed, he says, by a contraction of the heart and of the aorta, which latter is the big artery that comes out of the top of the heart and supplies the entire body with blood.

"I have been exciting this reflex," he says, "in many cases of dilated heart and aorta in both private and hospital practice. There were several failures, chiefly in children suffering from endocarditis (inflammation of the lining of the heart) and resulting myocarditis (inflammation of the tissues of the heart), with loss of compensation, conditions in which the heart and aorta usually failed to contract on concussion.

"In most cases the response was marked, a lateral contraction of over an inch being usual and of over two inches being not uncommon."

Of the cases treated and used as examples of the success of the method eleven were male and five female. One was under ten years of age and four were under twenty. Six were over fifty, one being seventy.

Sixty-two, She Wants Divorce.

St. Paul.—Desertion and nonsupport are charged in a suit for divorce recently filed in district court by Mrs. Augusta Geldermann, sixty-two years old, against Fritz Geldermann, sixty-three years old, a blacksmith. The Geldermanns were married April 17, 1900, and the wife alleges her husband left her in September, 1914. She asserts that during the first years of their married life she worked daily as well as he.
